   c. Mutual Funds shall participate in repo transactions only in 'AA and above' rated corporate debt securities.

4) The following guidelines shall be followed by DHFL Pramerica Mutual Fund for participating in repo in Corporate debt securities, which have been approved by the Board of AMC and Trustee Company:
   a) Category of Counterparty to be considered for making investment:
      All entities eligible for transacting in Corporate Bond repos as defined by SEBI and RBI shall be considered for repo transactions.
   b) Credit rating of Counterparty to be considered for making investment:
      The scheme shall participate in Corporate Bond repo transactions with counterparties having a minimum investment grade rating and approved by the Investment Committee on a case-to-case basis. In case a Counterparty is unrated, the Investment Committee shall decide/ assign a rating to the Counterparty and report the same to the Board.
   c) Tenor of Repo and Collateral:
      As a repo seller (borrowing), the scheme will borrow cash for a period not exceeding 6 months or as per extant regulations. As a repo buyer, the Scheme are allowed to undertake the transactions (lending) for maximum maturity upto one year or such other terms as may be approved by the Investment Committee. There shall be no restriction / limitation on the tenor of the underlying collateral that is being accepted.
   d) Applicable haircuts:
      As per RBI circular RBI/2012-13/365 IDMD.PCD.09/14.03.02/2012-13 dated 07/01/2013, all Corporate Bond repo transaction will be subject to a minimum haircut given as below:
      a. AAA : 7.50%
      b. AA+ : 8.50%
      c. AA : 10.00%
      The haircut will be applicable on the prevailing market value of the said security on the prevailing date of trade. However, the fund manager may ask for a higher haircut (while lending) or give a higher haircut (while borrowing) depending on the prevailing market and liquidity situation.

5) Risks envisaged and Mitigation measures for repo transactions:
   a) Counterparty Risks - Risks could arise if the Counterparty does not return the security (in a borrowing transaction) as contracted or pay interest (lending transaction) on the due date. This risk is largely mitigated, as the choice of counterparties is 'restricted' and their credit ratings and overall credit risk levels are taken into account before entering into such transactions.
   b) Settlement Risks - Operational risks are lower as such trades are settled on a DVP (Delivery versus Payment - Safe settlement) basis. The trades are settled on a bilateral basis in the OTC segment.
   c) Collateral / Credit Risk - In the event of the scheme being unable to pay back the money to the Counterparty as contracted, the counterparty may dispose of the assets (as they have sufficient margin) and the net proceeds if any after such disposal may be refunded to the scheme. The value of the collateral will be monitored on a daily basis and shortfalls if any will lead to demand on the counterparty to top up collateral. In ability to comply with top up requests could lead to liquidation of security / collateral and an early / premature termination of the agreement.

This Notice-cum-Addendum forms an integral part of SIDs and KIMs of the Schemes of the Mutual Fund, as amended from time to time. All the other terms and conditions of SIDs and KIMs of the Schemes of the Mutual Fund will remain unchanged.
