Investment objective	<p>The investment objective of the scheme is to seek to generate long term capital appreciation and income from a portfolio of equity and equity related securities as well as fixed income securities.</p> <p>However, there can be no assurance that the investment objective of the Scheme will be achieved. The Scheme does not guarantee/ indicate any returns.</p>
Liquidity	The Scheme offers Units for Subscription and Redemption at NAV based prices on all Business Days on an ongoing basis. Under normal circumstances the AMC shall dispatch the redemption proceeds within 10 business days from date of receipt of redemption request from the Unit holder.
Benchmark	CRISIL Hybrid 35 + 65 Aggressive Index
Transparency / NAV Disclosure	The NAV of the Scheme will be calculated and disclosed on all Business Days. The AMC shall update the NAVs on the website of the AMC (www.pgimindiamf.com) and of the Association of Mutual Funds in India-AMFI (www.amfiindia.com) before 9.00 p.m. on every Business Day. In case of any delay, the reasons for such delay would be explained to AMFI by the next Business Day. If the NAVs are not available before the commencement of Business Hours on the following Business day due to any reason, the Mutual Fund shall issue a press release giving reasons and explaining when the Mutual Fund would be able to publish the NAV. Investor may write to AMC for availing facility of receiving the latest NAVs through SMS.
Loads	<p>Entry Load: Not Applicable (Note:- The upfront commission on investment made by the investor, if any, shall be paid to the distributor (AMFI registered distributor/ARN Holder) directly by the investor, based on the investor's assessment of various factors including service rendered by the distributor.)</p> <p>Exit Load:</p> <ul style="list-style-type: none"> • 10% of the units allotted may be redeemed without any exit load on or before 12 months from the date of allotment; • Any redemptions out in excess of the above mentioned limit would be subject to an exit load of 1%, if the units are redeemed out on or before completion of 12 months from the date of allotment of units; • Nil - If the units are redeemed out after completion of 12 months from the date of allotment of units. <p>The entire exit load (net of Goods and Services tax), charged, if any, shall be credited to the Scheme.</p> <p>No exit load will be charged for switches and STP between schemes of PGIM India Mutual Fund. However, exit load will continue to apply for redemptions</p>
Plans & Options	<p>The Scheme offers two plans viz. Regular Plan and Direct Plan.</p> <p>Direct Plan is only for investors who purchase /subscribe Units in the Scheme directly with the Fund and is not available for investors who route their investments through a Distributor and is offered in accordance with Para D of SEBI Circular no. CIR/IMD/DF/21/2012 dated September 13, 2012.</p> <p>Each Plan has two Options, viz., Growth Option and Dividend Option. Dividend Option has the following two facilities:</p> <ol style="list-style-type: none"> i. Dividend Reinvestment facility; ii. Dividend Payout facility; <p>Dividend Frequency: Dividend, Monthly, Quarterly, and Annual</p>

	<p>If distributor code is mentioned in application form but 'Direct Plan' is mentioned in the scheme name, the distributor code will be ignored and the application will be processed under 'Direct Plan' & in case neither distributor code nor "Direct" is indicated in the application form, the same will be treated as Direct Plan.</p> <p>Default Option/Sub-option: The investor must clearly specify his/her choice of Option/Sub-option in the application form, in the absence of which, the Default Option/Sub-option would be applicable and the application will be processed accordingly:</p> <p>Default Option: Growth Option (if the investor has not indicated choice between 'Growth' or 'Dividend' Options).</p> <p>Default Sub-option Under Dividend Option: Dividend Reinvestment Plan</p> <p>Default Dividend Frequency: Dividend</p> <p>It must be distinctly understood that the actual declaration of dividend and frequency thereof is at the sole discretion of Board of Directors of the Trustee Company. There is no assurance or guarantee to the Unit holders as to the rate of dividend distribution nor that the dividend will be paid regularly. If the amount of Dividend payable under the Dividend Payout facility is Rs. 50/- or less, then the Dividend would be compulsorily reinvested in the option of the Scheme.</p> <p>All plans/options under the Scheme shall have common portfolio.</p>
<p>Minimum Amount for Purchase / Additional Purchase / Redemption</p>	<p>Initial Purchase – Minimum of Rs. 5000/- and in multiples of Rs. 1/- thereafter.</p> <p>Additional Purchase – Minimum of Rs. 1000/- and in multiples of Re.1/- thereafter or 100 units</p> <p>Repurchase / Redemption Amount – Minimum of Rs. 100/- and in multiples of Re.1/- thereafter or 0.1 unit or account balance whichever is lower.</p>

Transaction Charges:

In accordance with SEBI Circular No. IMD/ DF/13/ 2011 dated August 22, 2011 read with circular no. CIR/ IMD/ DF/ 21/ 2012 dated September 13, 2012, the AMC/ Fund shall deduct a Transaction Charge on per purchase / subscription of Rs. 10,000/- and above, as may be received from new investors (an investor who invests for the first time in any mutual fund schemes) and existing investors. Such deduction shall be as under (provided the distributor has opted in to receive the transaction charges):-

- For the new investor a transaction charge of Rs 150/- shall be levied for per purchase / subscription of Rs 10,000/- and above; and
- For the existing investor a transaction charge of Rs 100/- shall be levied for per purchase / subscription of Rs 10,000/- and above.

The transaction charge shall be deducted from the subscription amount and paid to the distributor and the balance amount (net of transaction charges) shall be invested. The transaction charges and the net investment amount and the number of units allotted will be clearly mentioned in the Account Statement issued by the Mutual Fund. Distributors may choose to either option to opt-in or opt out of charging the transaction charge.

In case of investments through Systematic Investment Plan (SIP) the transaction charges shall be deducted only if the total commitment through SIP (i.e. amount per SIP installment x No. of installments) amounts to Rs. 10,000/- and above. In such cases, the transaction charges shall be deducted in 3-4 installments.

However, the Transaction charges shall not be deducted if:

- a) The amount per purchases /subscriptions is less than Rs. 10,000/-;
- b) The transaction pertains to other than purchases/ subscriptions relating to new inflows such as Switch/STP, etc.
- c) Purchases/Subscriptions made directly with the Fund through any mode (i.e. not through any distributor/agent).
- d) The Distributor has opted out for levy of transaction charges.

Upfront commission to distributors shall continue to be paid by the investor directly to the distributor by a separate cheque based on his assessment of various factors including the service rendered by the distributor.

I. Introduction

A. RISK FACTORS

i) Standard Risk Factors

- Investment in Mutual Fund Units involves investment risks such as trading volumes, settlement risk, liquidity risk, default risk including the possible loss of principal;
- As the price/value/interest rates of the securities in which the Scheme invests fluctuates, the value of your investment in the Scheme may go up or down;
- Past performance of the Sponsor/AMC/Mutual Fund does not guarantee future performance of the Scheme;
- The name of the Scheme does not in any manner indicate either the quality of the scheme or its future prospects and returns;
- Save as otherwise provided in the Regulations, the Sponsor are not responsible or liable for any loss resulting from the operation of the Scheme beyond the initial contribution of Rs.100,000/- made by it towards setting up the Fund;
- The present Scheme is not guaranteed or assured return scheme.

ii) Scheme Specific Risk Factors

Some of the Scheme specific risk factors include, but not limited, to the following:-

1. Risks associated with investments in Equities

- Equity and equity related securities may be volatile and hence are prone to price fluctuations on a daily basis. The liquidity of investments made in the Scheme may be restricted by trading volumes and settlement periods. Settlement periods may be extended significantly by unforeseen circumstances. The inability of the Scheme to make intended securities purchases, due to settlement problems, could cause the Scheme to miss certain investment opportunities. Similarly, the inability to sell securities held in the Scheme portfolio would result at times, in potential losses to the Scheme, should there be a subsequent decline in the value of securities held in the Scheme portfolio. Also, the value of the Scheme investments may be affected by interest rates, currency exchange rates, changes in law / policies of the government, taxation laws and political, economic or other developments which may have an adverse bearing on individual securities, a specific sector or all sectors.
- Investments in equity and equity related securities involve a degree of risk and investors should not invest in the equity Schemes unless they can afford to take the risk of losing their investment.
- Liquidity Risk on account of unlisted securities: Securities which are not quoted on the stock exchanges are inherently illiquid in nature and carry a larger liquidity risk in comparison with securities that are listed on the exchanges or offer other exit options to investors, including put options. The AMC may choose to invest in unlisted securities within the regulatory limit. The liquidity and valuation of the Scheme investments due to their holdings of unlisted securities may be affected negatively if they have to be sold prior to their target date of divestment. The value of unlisted security may go down before the divestment date and selling these securities before the divestment date may lead to losses in the portfolio.

2. Risk associated with investing in Fixed Income Securities

- The Scheme may invest in debt and debt related instruments, as may be permitted by SEBI, from time to time. Trading volumes, settlement periods and transfer procedures may restrict the liquidity of these investments. Different segments of Indian financial markets have different settlement periods and such periods may be extended significantly by unforeseen circumstances. The inability of the Scheme to make intended securities' purchases due to settlement problems could cause the Scheme to miss certain investment opportunities. The length of time for settlement may affect the Scheme in the event the Scheme has to meet an exceptionally large number of redemption requests. The Scheme will retain certain investments in cash or cash equivalents for its day-to-day liquidity requirements.
- A fundamental risk relating to all fixed income securities is a chance that an issuer will fail to make a principal and interest payment when due (credit risk). Issuers with higher credit risks typically offer higher yields for this added risk. Conversely, issuers with lower credit risk offer lower credit yields. Generally government securities are considered to be the safest in terms of the credit risk. Changes in financial conditions of an issuer, changes in economic and political conditions in general, or changes in economic or and political conditions specific to an issuer, all of which are factors that may have an adverse impact on a firms credit quality and security values. While it is the intent of the Investment Manager to invest primarily in highly rated debt securities, the Scheme may from time to time invest in higher yielding, lower rated securities. This is likely to enhance the degree of credit risk. The Investment Manager will endeavour to manage credit risk through in-house credit analysis.
- All fixed income securities are also affected by changes in interest rates (interest rate risk). The prices of debt securities generally increase as interest rates decline and generally decrease as interest rates rise. Prices of long-term securities generally fluctuate more in response to interest rate changes than the short-term securities. The Debt markets can be volatile leading to the possibility of up or down movements in prices of fixed

income securities and thus the possible movements in the NAV. The Scheme(s) may use various hedging products from time to time, as are available and permitted by SEBI, to attempt to reduce the impact of undue market volatility on the Scheme's portfolio.

- Debt securities may also be subject to price volatility due to factors such as market perception of the issuer and general market liquidity conditions (market risk).
- Lower rated or unrated securities are more likely to react to developments affecting the credit market than highly rated securities, which react primarily to movements in the general level of interest rates. Lower rated securities also tend to be more sensitive to economic conditions than higher rated securities. The Investment Manager will consider both credit risk and market risk in making investment decisions.
- The corporate debt market is relatively illiquid vis-à-vis the government securities market. Even though the government securities market is more liquid compared to that of other debt instruments, on occasions, there could be difficulties in transacting in the market due to extreme volatility or unusual constriction in market volumes or on occasions when an unusually large transaction has to be put through.
- Zero coupon or deep discount bonds are debt obligations that do not entitle the holder to any periodic payment of interest prior to maturity or a specified date when the securities begin paying current interest and therefore, are generally issued and traded at a discount to their face values. The discount depends on the time remaining until maturity or the date when securities begin paying current interest. It also varies depending on the prevailing interest rates, liquidity of the security and the perceived credit risk of the Issuer. The market prices of zero coupon securities are generally more volatile than the market prices of securities that pay interest periodically and are likely to respond to changes in interest rates to a greater degree than other coupon bearing securities having similar maturities and credit quality.
- Apart from normal credit risk, zero coupon bonds carry an additional risk, unlike bonds that pay interest throughout the period to maturity, zero coupon instruments/deferred interest bonds typically would not realise any cash until maturity or till the time interest payment on the bonds commences. If the issuer defaults, the Scheme may not obtain any return on its investment.
- The Scheme may invest in securities which are not quoted on a stock exchange ("unlisted securities") which in general are subject to greater price fluctuations, less liquidity and greater risk than those which are traded in the open market. Unlisted securities may lack a liquid secondary market, and there can be no assurance that the Scheme will realise its investments in unlisted securities at a fair market value, if sold in the secondary market.
- There have been times in the past, when settlements have been unable to keep pace with the volume of securities transactions, making it difficult to conduct further transactions. Delays or other problems in settlement of transactions could result in temporary periods when the assets of the Scheme are not invested and no return is earned thereon.
- Prepayment Risk: Certain fixed income securities give an issuer the right to call back its securities before their maturity date, in periods of declining interest rates. The possibility of such prepayment may force the fund to reinvest the proceeds of such investments in securities offering lower yields, resulting in lower interest income for the fund.
- Reinvestment Risk: This risk refers to the interest rate levels at which cash flows received from the securities in the Plans are reinvested. The additional income from reinvestment is the "interest on interest" component. The risk is that the rate at which interim cash flows can be reinvested may be lower than that originally assumed.
- Settlement Risk: The inability of the Scheme to make intended securities purchases due to settlement problems could cause the Scheme to miss certain investment opportunities. By the same rationale, the inability to sell securities held in the Scheme's portfolio due to the extraneous factors that may impact liquidity would result at times, in potential losses to the Scheme, in case of a subsequent decline in the value of securities held in the Scheme's portfolio.
- Regulatory Risk: Changes in government policy in general and changes in tax benefits applicable to Mutual Funds may impact the returns to investors in the Scheme.
- The value of the Scheme's investments may be affected generally by factors affecting capital markets, such as interest rates, currency exchange rates, foreign investment, changes in government policy, taxation and political, economic or other developments. Consequently, the net asset value of the Scheme may fluctuate and the value of the Scheme's Units may go down or up. Past performance of the sponsor is not necessarily indicative of future performance of the Scheme.
- Money Market instruments are instruments that are generally have maturity of less than one year. The NAV of the Scheme's Units, will be affected by the changes in the level of interest rates.
- Investments in money market instruments and debt instruments involve credit risk commensurate with short term rating of the issuers.
- The Scheme at times may receive large number of redemption requests, leading to an asset-liability mismatch and therefore, requiring the investment manager to make a distress sale of the securities leading to realignment of the portfolio and consequently resulting in investment in lower yield instruments.

- **Risk envisaged and mitigation measures for repo transactions:**

Counterparty Risks - Risks could arise if the Counterparty does not return the security (in a borrowing transaction) as contracted or pay interest (lending transaction) on the due date. This risk is largely mitigated, as the choice of counterparties is 'restricted' and their credit ratings and overall credit risk levels are taken into account before entering into such transactions.

Settlement Risks - Operational risks are lower as such trades are settled on a DVP (Delivery versus Payment - Safe settlement) basis. The trades are settled on a bilateral basis in the OTC segment.

Collateral / Credit Risk - In the event of the scheme being unable to pay back the money to the Counterparty as contracted, the counter party may dispose of the assets (as they have sufficient margin) and the net proceeds if any after such disposal may be refunded to the scheme. The value of the collateral will be monitored on a daily basis and shortfalls if any will lead to demand on the counterparty to top up collateral. Inability to comply with top up requests could lead to liquidation of security / collateral and an early / premature termination of the agreement.

3. Risk associated with investments in Derivatives

- Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investors. Execution of such strategies depends upon the ability of the fund manager to identify such opportunities as well as to manage risks arising thereby. Identification and execution of the strategies to be pursued by the Scheme involve uncertainty and investment decisions may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies. Derivative investments carry certain risks and issues arising out of such dealings. The risks associated with the use of derivatives - either for hedging or for portfolio balancing – are different from, and possibly greater than, the risks associated with investing directly in securities and other traditional investments. Certain other risks, one or more, that may arise consequent to use of derivatives are: risk of mis-pricing or improper valuation of derivatives, credit risk arising out of counterparty failing to honour its commitment, liquidity risk where the derivatives cannot be sold at prices that reflect the underlying assets, rates and indices, and price risk where the market price may move in adverse fashion. Derivatives require the maintenance of adequate controls to monitor the transactions entered into, the ability to assess the risk that a derivative adds to the portfolio and the ability to manage the risks as a result of the possible failure of the counterparty to comply with the terms of the derivative contract.
- To the extent that Derivatives are utilised to seek to achieve the investment objectives of the Scheme, and for purposes other than hedging, the overall risk of loss to the Scheme may be increased. To the extent that Derivatives are utilised for hedging purposes, the risk of loss to the Scheme may be increased where the value of the Derivative instrument and the value of the Security or position which it is hedging are insufficiently correlated.
- Futures and Call Options: The Scheme may invest in Derivatives such as futures and call options. The option buyer's risk is limited to the premium paid, while the risk of an option writer is unlimited. However the gains of an option writer are limited to the premiums earned. The writer of a call option bears a risk of loss if the value of the underlying asset increases above the exercise price. The loss can be unlimited as the underlying asset can increase to any level. The writer of a put option bears the risk of loss if the value of the underlying asset declines below the exercise price and the loss is limited to the strike price. The relevant stock exchange, if any, may impose restrictions on the exercise of options and may also restrict the exercise of options at certain times in specified circumstances.

- **Covered call options for equity shares**

A. Benefits of using Covered Call strategy in Mutual Funds:

The covered call strategy can be followed by the Fund Manager in order to hedge risk thereby resulting in better risk adjusted returns of the Scheme. The strategy offers the following benefits:

- Hedge against market risk - Since the fund manager sells a call option on a stock already owned by the mutual fund scheme, the downside from fall in the stock price would be lower to the extent of the premium earned from the call option.
- Generating additional returns in the form of option premium in a range bound market.

Thus, a covered call strategy involves gains for unit holders in case the strategy plays out in the right direction

B. Risks for writing covered call options for equity shares:

- Writing call options are highly specialized activities and entail higher than ordinary investment risks. In such investment strategy, the profits from call option writing is capped at the option premium, however the downside depends upon the increase in value of the underlying equity shares. This downside risk is reduced by writing covered call options.
- The Scheme may write covered call option only in case it has adequate number of underlying equity shares as per regulatory requirement.

This would lead to setting aside a portion of investment in underlying equity shares. If covered call options are sold to the maximum extent allowed by regulatory authority, the scheme may not be able to sell the underlying equity shares immediately if the view changes to sell and

exit the stock. The covered call options need to be unwound before the stock positions can be liquidated. This may lead to a loss of opportunity, or can cause exit issues if the strike price at which the call option contracts have been written become illiquid. Hence, the scheme may not be able to sell the underlying equity shares, which can lead to temporary illiquidity of the underlying equity shares and result in loss of opportunity.

- c) The writing of covered call option would lead to loss of opportunity due to appreciation in value of the underlying equity shares. Hence, when the appreciation in equity share price is more than the option premium received the scheme would be at a loss.
- d) The total gross exposure related to option premium paid and received must not exceed the regulatory limits of the net assets of the scheme.

This may restrict the ability of Scheme to buy any options.

- Investments in index futures face the same risk as investments in a portfolio of shares representing an index. The extent of loss is the same as in the underlying Securities.
- The risk of loss in trading futures contracts can be substantial, because of the low margin deposits required, the extremely high degree of leverage involved in futures pricing and the potential high volatility of the futures markets.

4. Risk factors applicable to Arbitrage position, unwinding the arbitrage position, Roll over the futures, and a multi Options arbitrage strategy

- Lack of opportunity to invest in arbitrage portions in the equity market.
- The risk of mispricing or improper valuation and the inability of derivatives to correlate perfectly with underlying assets, rates and indices.
- While future market are typically more liquid than underlying cash market, there can be no assurance that ready liquidity would exist at all point in time for the scheme to purchase and close out a specific futures contract.
- In case of arbitrage, if futures are allowed to expire with corresponding buy/sell in cash market, there is a risk that price at which futures expires, may/may not match with the actual cost at which it is bought/ sold in the cash market in last half an hour of the expiry day (Weighted average price for buy or sell).

5. Risk associated with Overseas Investment

- Subject to necessary approvals and within the investment objectives of the Scheme, the Scheme may invest in overseas markets which carry a risk on account of fluctuations in the foreign exchange rates, nature of securities market of the country, repatriation of capital due to exchange controls and political circumstances.
- It is the AMC's belief that investment in Permitted Foreign Securities offers new investment and portfolio diversification opportunities into multi-market and multi-currency products. However, such investments also entail additional risks. Such investment opportunities may be pursued by the AMC provided they are considered appropriate in terms of the overall investment objectives of the Scheme. Since the Scheme would invest in Permitted Foreign Securities including but not limited to units/ securities issued by overseas mutual fund or unit trusts which are registered with the overseas regulator, there may not be readily available and widely accepted benchmarks to measure performance of the Scheme. To manage risks associated with foreign currency and interest rate exposure, the Scheme may use derivatives in accordance with conditions as may be stipulated by SEBI/RBI from time to time.
- Offshore investments will be made subject to any/all approvals, conditions thereof as may be stipulated by SEBI/RBI and provided such investments do not result in expenses to the Scheme in excess of the ceiling on expenses prescribed by and consistent with costs and expenses attendant to international investing.
- To the extent that the assets of the Scheme will be invested in securities denominated in foreign currencies, the Indian Rupee equivalent of the net assets, distributions and income may be adversely affected by changes in the value of certain foreign currencies relative to the Indian Rupee. The repatriation of capital to India may also be hampered by changes in regulations concerning exchange controls or political circumstances as well as the application to it of other restrictions on investment. Due to time zone differences, NAV of investee scheme in such cases may not be available for the same day.

6. Risks associated with investment in Securitised Instruments:

Generally available Asset Classes for Securitisation in India are:

- Commercial Vehicles
- Auto and Two wheeler pools
- Mortgage pools (residential housing loans)
- Personal Loan, credit card and other retail loans
- Corporate loans/receivables

Underlying Risk: Each asset class has a different underlying risk, however, residential mortgages are supposed to be having lower default rates. On the other hand, repossession and subsequent recovery of commercial vehicles and other auto assets is fairly easier and better compared to mortgages. Some of the asset classes such as personal loans, credit card receivables etc., being unsecured credits in nature, may witness higher default rates. As regards corporate loans/receivables, depending upon the nature of the underlying security for the loan or the nature of the receivable the risks would correspondingly fluctuate. However, the credit enhancement stipulated by rating agencies for such asset class pools is typically much higher and hence their overall risks are comparable to other AAA rated asset classes.

The rating agencies have an elaborate system of stipulating margins, over collateralisation and guarantee to bring risk limits in line with the other AAA rated securities. Please note that the scheme(s) intends to invest predominantly in AAA rated securitised debt.

Investment exposure of the Fund with reference to Securitised Debt:

The Fund will predominantly invest only in those securitization issuances which have AAA rating indicating the highest level of safety from credit risk point of view at the time of making an investment. The Fund will not invest in foreign securitised debt.

The Fund may invest in various type of securitisation issuances, including but not limited to Asset Backed Securitisation, Mortgage Backed Securitisation, Personal Loan Backed Securitisation, Collateralized Loan Obligation/Collateralized Bond Obligation and so on.

The Fund does not propose to limit its exposure to only one asset class or to have asset class based sub-limits as it will primarily look towards the AAA rating of the offering.

Risk Factors specific to investments in Securitised and Structured Instruments: Underlying Risk

Each asset class has a different underlying risk, however, residential mortgages are supposed to be having lower default rates. On the other hand, repossession and subsequent recovery of commercial vehicles and other auto assets is fairly easier and better compared to mortgages. Some of the asset classes such as personal loans, credit card receivables etc., being unsecured credits in nature, may witness higher default rates. As regards corporate loans/receivables, depending upon the nature of the underlying security for the loan or the nature of the receivable the risks would correspondingly fluctuate. However, the credit enhancement stipulated by rating agencies for such asset class pools is typically much higher and hence their overall risks are comparable to other similarly rated asset classes.

Limited Liquidity & Price Risk :

Presently, secondary market for securitised papers is not very liquid. There is no assurance that a deep secondary market will develop for such securities. This could limit the ability of the investor to resell them. Even if a secondary market develops and sales were to take place, these secondary transactions may be at a discount to the initial issue price due to changes in the interest rate structure.

Limited Recourse, Delinquency and Credit Risk:

Securitised transactions are normally backed by pool of receivables and credit enhancement as stipulated by the rating agency, which differ from issue to issue. The Credit Enhancement stipulated represents a limited loss cover to the Investors. These Certificates represent an undivided beneficial interest in the underlying receivables and there is no obligation of either the Issuer or the Seller or the originator, or the parent or any affiliate of the Seller, Issuer and Originator. No financial recourse is available to the Certificate Holders against the Investors' Representative. Delinquencies and credit losses may cause depletion of the amount available under the Credit Enhancement and thereby the Investor Payouts may get affected if the amount available in the Credit Enhancement facility is not enough to cover the shortfall. On persistent default of a Obligor to repay his obligation, the Servicer may repossess and sell the underlying Asset.

However many factors may affect, delay or prevent the repossession of such Asset or the length of time required to realize the sale proceeds on such sales. In addition, the price at which such Asset may be sold may be lower than the amount due from that Obligor.

Risks due to possible prepayments:

Asset securitisation is a process whereby commercial or consumer credits are packaged and sold in the form of financial instruments. Full prepayment of underlying loan contract may arise under any of the following circumstances:

- Obligor pays the Receivable due from him at any time prior to the scheduled maturity date of that Receivable; or
- Receivable is required to be repurchased by the Seller consequent to its inability to rectify a material misrepresentation with respect to that Receivable; or
- The Servicer recognizing a contract as a defaulted contract and hence repossessing the underlying Asset and selling the same.

In the event of prepayments, investors may be exposed to changes in tenor and yield.

Bankruptcy of the Originator or Seller

If originator becomes subject to bankruptcy proceedings and the court in the bankruptcy proceedings concludes that the sale from originator to Trust was not a sale then an Investor could experience losses or delays in the payments due. All possible care is generally taken in structuring the transaction

so as to minimize the risk of the sale to Trust not being construed as a "True Sale". Legal opinion is normally obtained to the effect that the assignment of Receivables to Trust in trust for and for the benefit of the Investors, as envisaged herein, would constitute a true sale.

Bankruptcy of the Investor's Agent

If Investor's agent, becomes subject to bankruptcy proceedings and the court in the bankruptcy proceedings concludes that the recourse of Investor's Agent to the assets/receivables is not in its capacity as agent/Trustee but in its personal capacity, then an Investor could experience losses or delays in the payments due under the swap agreement. All possible care is normally taken in structuring the transaction and drafting the underlying documents so as to provide that the assets/receivables if and when held by Investor's Agent is held as agent and in Trust for the Investors and shall not form part of the personal assets of Investor's Agent. Legal opinion is normally obtained to the effect that the Investors Agent's recourse to assets/receivables is restricted in its capacity as agent and trustee and not in its personal capacity.

Credit Rating of the Transaction/Certificate

The credit rating is not a recommendation to purchase, hold or sell the Certificate in as much as the ratings do not comment on the market price of the Certificate or its suitability to a particular investor. There is no assurance by the rating agency either that the rating will remain at the same level for any given period of time or that the rating will not be lowered or withdrawn entirely by the rating agency.

Risk of Co-mingling

The Servicers normally deposit all payments received from the Obligors into the Collection Account. However, there could be a time gap between collection by a Servicer and depositing the same into the Collection account especially considering that some of the collections may be in the form of cash. In this interim period, collections from the Loan Agreements may not be segregated from other funds of the Servicer. If the Servicer fails to invest such funds due to Investors, the Investors may be exposed to a potential loss. Due care is normally taken to ensure that the Servicer enjoys highest credit rating on stand alone basis to minimize Co-mingling risk.

7. Risk factors associated with investments in REITs and InvITS:

- **Market Risk:** REITs and InvITS are volatile and prone to price fluctuations on a daily basis owing to market movements. Investors may note that AMC/Fund Manager's investment decisions may not always be profitable, as actual market movements may be at variance with the anticipated trends. The NAV of the Scheme is vulnerable to movements in the prices of securities invested by the scheme, due to various market related factors like changes in the general market conditions, factors and forces affecting capital market, level of interest rates, trading volumes, settlement periods and transfer procedures.
- **Price-Risk or Interest-Rate Risk:** REITs & InvITS run price-risk or interest-rate risk. Generally, when interest rates rise, prices of existing securities fall and when interest rates drop, such prices increase. The extent of fall or rise in the prices is a function of the existing coupon, days to maturity and the increase or decrease in the level of interest rates.
- **Liquidity Risk:** This refers to the ease with which securities can be sold. There is no assurance that an active secondary market will develop or be maintained. Hence there would be time when trading in the units could be infrequent. The subsequent valuation of illiquid units may reflect a discount from the market price of comparable securities for which a liquid market exists.
- **Reinvestment Risk:** Investments in REITs & InvITS may carry reinvestment risk as there could be repatriation of funds by the Trusts in form of buyback of units or dividend pay-outs, etc. Consequently, the proceeds may get invested in assets providing lower returns.

The above are some of the common risks associated with investments in REITs & InvITS. There can be no assurance that a Scheme's investment objectives will be achieved, or that there will be no loss of capital. Investment results may vary substantially on a monthly, quarterly or annual basis.

8. Risks associated with segregated portfolio

- Investor holding units of segregated portfolio may not able to liquidate their holding till the time recovery of money from the issuer.
- Security comprising of segregated portfolio may not realise any value
- Listing of units of segregated portfolio in recognised stock exchange does not necessarily guarantee their liquidity. There may not be active trading of units in the stock market. Further trading price of units on the stock market may be significantly lower than the prevailing NAV.

9.. Risks associated with investing in Tri-Party Repo through CCIL (TREPS)

The mutual fund is a member of securities segment and Tri-party Repo trade settlement of the Clearing Corporation of India (CCIL). All transactions of the mutual fund in government securities and in Tri-party Repo trades are settled centrally through the infrastructure and settlement systems provided by CCIL; thus reducing the settlement and counterparty risks considerably for transactions in the said segments. CCIL maintains prefunded resources in all the clearing segments to cover potential losses arising from the default member. In the event of a clearing member failing to honour his settlement obligations, the default Fund is utilized to complete the settlement. The sequence in which the above resources are used is known as the "Default Waterfall". As per the waterfall mechanism, after the defaulter's margins and the defaulter's contribution to the default fund have been appropriated,

CCIL's contribution is used to meet the losses. Post utilization of CCIL's contribution if there is a residual loss, it is appropriated from the default fund contributions of the non-defaulting members. Thus the scheme is subject to risk of the initial margin and default fund contribution being invoked in the event of failure of any settlement obligations. In addition, the fund contribution is allowed to be used to meet the residual loss in case of default by the other clearing member (the defaulting member).

Risk Mitigation Measures by AMC:

Nature of Risk	Risk Mitigation Measures by AMC
For making investment in equity schemes	
Liquidity Risk: Trading volumes, settlement periods and transfer procedures may restrict the liquidity of underlying investments.	All trades are executed on the two leading exchanges, the NSE and BSE. The internal investment process incorporates the days required to sell as an important criteria for investment decisions. Further, the days required to liquidate an investment is actively monitored by our internal systems. This ensures that the liquidity risk in the portfolio is minimized.
Settlement Risk: Different segments of Indian financial markets have different settlement periods and such periods may be extended significantly by unforeseen circumstances. The inability of the Schemes to make intended securities' purchases due to settlement problems could cause the Schemes to miss certain investment opportunities.	The portfolio invests only in stocks listed on the Bombay Stock Exchange and/or the National Stock Exchange. Both these exchanges are regulated by SEBI. The counterparty risk and settlement risk for all trades on the NSE is guaranteed by the National Securities Clearing Corporation Ltd. (a wholly owned subsidiary of the NSE); and by the Trade Guarantee Fund of BSE. Fixed income investments for equity schemes are limited to highly liquid money market instruments and used only as a cash management tool. Therefore, this minimizes the settlement risk in the portfolio.
Volatility Risk: Equity securities and equity related securities are volatile and prone to price fluctuations on a daily basis.	The schemes has a diversified portfolio to counter the volatility in the prices of individual stocks. Diversification in the portfolio reduces the impact of high fluctuations in daily individual stock prices on the portfolio.
Risk of investing in unlisted securities: In general investing in unlisted securities are subject to greater price fluctuations, less liquidity and greater risk than those which are traded in the open market. Unlisted securities may lack a liquid secondary market and there can be no assurance that the Schemes will realize its investments in unlisted securities at a fair value.	As per SEBI guidelines, not more than 10% of the portfolio can be invested in unlisted securities. Rigorous due diligence is undertaken before any investments are made by the portfolio in unlisted securities.
For making investment in fixed income and money markets	
Credit Risk: Debt securities are subject to the risk of an issuer's inability to meet principal and interest payments on the obligations.	The fund has a rigorous credit research process. The credit team analyses and approves each issuer before investment by the schemes. There is a regulatory and internal cap on exposure to each issuer. This ensures a diversified portfolio and reduced credit risk in the portfolio.
Liquidity Risk: The corporate debt market is relatively illiquid vis-à-vis the government securities market. Even though the government securities market is more liquid compared to that of other debt instruments, on occasions, there could be difficulties in transacting in the market due to extreme volatility or unusual constriction in market volumes or on occasions when an unusually large transaction has to be put through.	The schemes are envisaged to be actively managed portfolios. The liquidity and volatility of a security are important criteria in security selection process. This ensures that liquidity risk is minimized.
Investing in unrated securities: Lower rated or unrated securities are more likely to react to developments affecting the market and the credit risk than the highly rated securities which react primarily to movements in the general level of interest rates. Lower rated securities also tend to be more sensitive to economic conditions than higher rated securities.	The schemes have a rigorous credit research process and as such all investments, rated or unrated, are analyzed and approved by the credit team before investment by the schemes. Further there is a regulatory and internal cap on exposure to unrated issuers, limiting exposure to unrated securities.

<p>Investing in unlisted securities: The Schemes may invest in securities which are not quoted on a stock exchange (“unlisted securities”) which in general are subject to greater price fluctuations, less liquidity and greater risk than those which are traded in the open market. Unlisted securities may lack a liquid secondary market and there can be no assurance that the Schemes will realise its investments in unlisted securities at a fair value.</p>	<p>The schemes will predominantly invest in listed securities and in some instances, invest in securities which are expected to be listed. Further, listing of debt securities typically has no significant impact on the liquidity, trading volatility and price discovery.</p>
<p>Settlement Risk: Delays or other problems in settlement of transactions could result in temporary periods when the assets of the Scheme are not invested and no return is earned thereon.</p>	<p>The AMC has a strong operations team and well laid out processes and systems, which mitigate operational risks attached with the settlement process.</p>
<p>Reinvestment Risk: This risk refers to the interest rate levels at which cash flows received from the securities in the Plans are reinvested. The additional income from reinvestment is the “interest on interest” component. The risk is that the rate at which interim cash flows can be reinvested may be lower than that originally assumed.</p>	<p>Reinvestment risk is an inherent feature of the portfolio management process. It may be managed, to a certain extent, by seeking to invest in securities with relatively low intermittent cash flows.</p>

B. REQUIREMENT OF MINIMUM INVESTORS IN THE SCHEME:

The Scheme shall have a minimum of 20 investors and no single investor shall account for more than 25% of the corpus of the Scheme. These two conditions shall be complied with, in each subsequent calendar quarter on an average basis, as specified by SEBI. In case of non-fulfillment of the condition of 20 investors in a calendar quarter,, the provisions of Regulation 39(2)(c) of the SEBI (MF) Regulations shall become applicable automatically without any reference from SEBI and accordingly the Scheme shall be wound up and the units would be redeemed at applicable NAV. If there is a breach of the 25% limit by any investor over the quarter, a rebalancing period of one month would be allowed and thereafter the investor who is in breach of the rule shall be given 15 days notice to redeem his exposure over the 25% limit. Failure on the part of the said investor to redeem his exposure over the 25% limit within the aforesaid 15 days would lead to automatic redemption by the Mutual Fund on the applicable Net Asset Value on the 15th day of the notice period. The Fund shall adhere to the requirements prescribed by SEBI from time to time in this regard.

II. Information about the Scheme

A. NAME AND TYPE OF THE SCHEME

PGIM India Hybrid Equity Fund (An open ended hybrid scheme investing predominantly in equity and equity related instruments)

B. INVESTMENT OBJECTIVE

The investment objective of the scheme is to seek to generate long term capital appreciation and income from a portfolio of equity and equity related securities as well as fixed income securities.

However, there can be no assurance that the investment objective of the Scheme will be achieved. The Scheme does not guarantee/ indicate any returns.

C. HOW WILL THE SCHEME ALLOCATE ITS ASSETS?

The asset allocation in the Scheme under normal circumstances will be as follows:

Instruments	Indicative allocations (% of total assets)		Risk Profile
	Minimum	Maximum	
Equity and equity related instruments [§]	65%	80%	Medium to High
Debt Securities and Money Market Instruments [#]	20%	35%	Low to Medium
Units issued by InVITs and REITs	0%	10%	Medium to High

[#]The Scheme may also invest in securitized debt up to 35% of the net assets.

If the Scheme decides to invest in foreign securities, such investments will not exceed 25% of the net assets of the Scheme.

[§] Includes investments in derivatives. The Maximum exposure to derivatives shall not exceed 50% of net assets of the scheme.

The Scheme may invest in repo of corporate debt securities in accordance with SEBI circular No. CIR/IMD/DF/19/2011 dated November 11, 2011 and SEBI Circular No. CIR/IMD/DF/23/2012 dated November 15, 2012. The Scheme may invest in Credit Default Swaps (CDS) in accordance with SEBI Circular No. CIR/IMD/DF/23/2012 dated November 15, 2012.

The scheme shall not invest in short selling and securities lending. The Scheme may also invest in units of debt and liquid mutual fund schemes.

The Scheme retains the flexibility to invest across all securities in the Debt Securities and Money Market Instruments. The portfolio may hold cash depending on the market conditions.

Pending deployment of funds of the Scheme in securities in terms of the investment objective of the Scheme the AMC may park the funds of the Scheme in short term deposits of scheduled commercial banks, subject to the guidelines issued by SEBI vide its circular dated April 16, 2007, as amended from time to time.

The cumulative gross exposure through equity, debt and derivative positions shall not exceed 100% of the net assets of the scheme.

Subject to the Regulations, the asset allocation pattern indicated above for the Scheme may change from time to time, keeping in view market conditions, market opportunities, applicable regulations and political and economic factors. It must be clearly understood that the percentages stated above may vary depending upon the perception of the Investment Manager, the intention being at all times to seek to protect the interests of the Unitholders, and meet the objective of the relevant Scheme/Plan. Such changes in the investment pattern will be for short term and defensive considerations. In case of deviation, the portfolio would be rebalanced within 30 calendar days from the date of deviation. Where the portfolio is not rebalanced within 30 calendar days, justification for the same shall be placed before the Investment Committee and reasons for the same shall be recorded in writing. The Investment Committee shall then decide on the course of action. However, at all times, the portfolio will adhere to the overall investment objective of the scheme.

- 16) Any overseas debt instrument, as permitted by regulations.
- 17) Any other permitted overseas securities/ instruments that may be available from time to time. Investment in Foreign Securities shall be in accordance with the guidelines issued by SEBI from time to time.
- 18) Schemes managed by the AMC or the schemes launched by SEBI registered Mutual Funds, provided it is in conformity to the investment objectives of the Scheme and in terms of the prevailing Regulations.
- 19) Investment in units of Real Estate Investment Trust ('REIT') & Infrastructure Investment Trust ('InvIT').
- 20) Any other instruments, as may be permitted by RBI / SEBI / such other Regulatory Authority, from time to time.

The securities mentioned above could be listed or unlisted, privately placed, secured or unsecured, rated or un-rated and of any maturity, as enabled under SEBI Regulations/ circulars/ RBI. The securities may be acquired from primary market / Initial Public Offer (IPO), secondary market operations, private placement or negotiated deals..

E. WHAT IS THE INVESTMENT STRATEGY?

The scheme will seek to achieve its investment objective by investing predominantly in equity and equity related instruments, debt and money market instruments and thru investments in InVITs and REITs.

Equity Strategy

The fund would have an actively managed portfolio. The fund manager will invest into companies across market capitalization. A combination of the top down and bottom up approach will be used to invest in equity and equity related instruments. Investments will be pursued in selected sectors based on the investment team's analysis of business cycles, regulatory reforms, competitive advantage etc. Selective stock picking will be done from these sectors. The fund manager in selecting stocks will focus on the fundamentals of the business, the industry structure, the quality of management, sensitivity to economic factors, the financial strength of the company and the key earnings drivers.

Derivatives Strategy

The scheme will also employ various strategies which seek to exploit opportunities available in the derivatives markets.

Fixed Income Strategy

The fixed income portfolio will consist of a pool of investment grade rated fixed income securities. The Fund Management team endeavors to meet the investment objective whilst maintaining a balance between safety and return on investments. The Fund Management team may endeavor to generate returns whilst moderating credit and interest rate risk. The Fund Manager shall formulate a view of the interest rate movement based on various parameters of the Indian economy, as well as developments in global markets. The actual allocation to Money Market securities and other fixed income Securities will be decided after considering the economic environment including interest rates and inflation, the performance of the corporate sector and general liquidity and other considerations in the economy and markets.

Securitisation - Concept

Asset securitisation is a process whereby commercial or consumer credits are packaged and sold in the form of financial instruments. A typical process of asset securitisation involves sale of specific Receivables to a Special Purpose Vehicle (SPV) set up in the form of a trust or a company. The SPV in turn issues financial instruments (e.g., promissory notes, pass through certificates or other debt instruments) to investors, such instruments evidencing the beneficial ownership of the investors in the Receivables. The financial instruments are rated by an independent credit rating agency. An Investor's Agent is normally appointed for providing trusteeship services for the transaction.

On the recommendation of the credit rating agency, additional credit support (Credit Enhancement) may be provided in order that the instrument may receive the desired level of rating. Typically the servicing of the Receivables is continued by the seller in the capacity of the Servicer. Cash flows, as and when they are received, are passed onto the investors.

Features of securitisation transactions include:

- Absolute true sale of assets to an SPV (with defined purposes and activities) in trust for the investors;
- Reliance by the investors on the performance of the assets for repayment - rather than the credit of the Originator (the seller) or the Issuer (the SPV);
- Consequent to the above, "Bankruptcy Remoteness" from the Originator;
- Support for timely payments, inter-alia, in the form of suitable credit enhancements, if required;
- Securitised debt paper usually achieves a high investment grade credit rating;
- There is a diversification of economic risks as credit risk is spread over a diversified group of obligors.

Generally available Asset Classes for securitisation in India

- Commercial Vehicles
- Auto and Two wheeler pools
- Mortgage pools (residential housing loans)
- Personal Loan, credit card and other retail loans
- Corporate to repo transactions in corporate bonds ans/receivables

The Scheme may invest in various type of securitisation issuances as contained in the above table, including but not limited to Asset Backed Securitisation, Mortgage Backed Securitisation, Personal Loan Backed Securitisation, Collateralized Loan Obligation/Collateralized Bond Obligation and so on.

Disclosure requirements for securitized debt

- 1) How the risk profile of securitized debt fits into the risk appetite of the Scheme

An evaluation procedure similar to that applied in analyzing plain vanilla debt (commercial paper, non convertible debentures and bonds) will be employed for analyzing securitized debt and assessing their eligibility for the various open ended and close ended fixed income portfolios. We will also analyze the risk profile in such instruments so that they are more or less in line with plain vanilla debt and in line with the investment objectives from a risk profile perspective for the various investing Schemes.

- 2) Policy relating to originators based on nature of originator, track record, NPAs, losses in earlier securitized debt, etc is as follows:

- (a) Track record - This is a key parameter that we consider at the time of analyzing the transaction. Originators with long track record of operation lend a greater degree of comfort, as they have a longer operating credit history which can be assessed. The track-record would vary depending on the obligor/originator. Further the trackrecord of having undertaken such transactions are also evaluated. Most of the entities which undertake such transactions in the Indian market have both a long track-record of operations and a history of having undertaken securitization transactions.
- (b) Willingness to pay, through credit enhancement facilities etc. - In this case the stand alone credit assessment of the obligor is carried out to indicate the overall financial health. In the case of retail pool securitization transactions, credit enhancement levels offered at the start and the overall utilization levels during the tenor of the transaction is analyzed to reflect the credit comfort and cushion available.
- (c) Ability to pay- this is the outcome of the stand-alone credit assessment of the issuer which is arrived after analyzing the income statement and balance sheet of the obligor. This aspect is key in the case of single loan sell down transactions, since the final repayment is to be made by the

obligor and is directly dependent on its overall financial health. This aspect is also usually reflected in the stand-alone credit rating of the company which primarily captures the credit risk i.e the ability to honour financial obligations to lenders in a timely fashion.

(d) Business risk assessment, wherein following factors are considered:

- Outlook for the economy (domestic and global) - this forms part of the usual credit assessment and the macro analysis. This will have a impact on the business risk of the obligor.
- Outlook for the industry - external risks are analyzed here and their impact on the business risk is analyzed. Opportunities and threats as part of the swot analysis are analyzed.
- Company specific factors - the strengths and weaknesses of the company are critically analyzed here

In addition a detailed review and assessment of rating rationale should be done including interactions with the company as well as agency - The latest rating assessment report is studied to understand the key strengths and risks faced by the issuer/obligor. It has been our practice to discuss the rating report with the rating agency in order to understand the finer credit aspects and the impact it could have on the financial health and rating. As part of the due diligence, we also hold discussions with the obligors/originators which help in getting a better insight into their background.

Critical Evaluation Parameters (for pool loan and single loan securitization transactions) regarding the originator/underlying issuer is as follows:

Default track record/frequent alteration of redemption conditions/covenants - all transaction conditions and covenants are analyzed to examine any flexibility available to the obligor/originator to alter the terms and conditions which can impact the investor position. If any of these conditions are un-favourable, then these are negotiated/altered at the start of the transaction.

High leverage ratios of the ultimate borrower (for single-sell downs) - both on a standalone basis as well on a consolidated level/ group level - financial analysis of balance sheet and income sheet ratios forms critical part of credit analysis, since factors such as gearing will determine both the credit rating as well as debt servicing and final repayment. High gearing also may limit the ability of the obligor to seek additional funding from the market on a timely basis to meet any maturing obligations. Hence this aspect is very crucial in the analysis.

Higher proportion of reschedulement of underlying assets of the pool or loan, as the case may be -we analyze the pool at start to ensure that there are no major rescheduled assets within the pool, since any deterioration of such assets could weaken the pool's overall asset quality and could lead to higher credit enhancement utilization.

Higher proportion of overdue assets of the pool or the underlying loan, as the case may be -quality of the retail pool at start is important as it could have a significant impact on the pool's performance during its tenor

Poor reputation in market - originators/obligors with poor reputation and/or financial health are usually discarded during our credit evaluation, since asset quality could quickly deteriorate in some cases which could impair debt servicing and repayment. Further, such obligors would also find it difficult to tap the market to raise funds if needed to meet any maturing financial obligations.

Insufficient track record of servicing of the pool or the loan, as the case may be - since we critically assess track-record of operations of the obligor/originator, any shortfall in this parameter would be captured in our analysis. We usually prefer obligors/originators with reasonable operating history since it offers adequate credit history for purpose of credit analysis.

3) Risk mitigation strategies for investments with each kind of originator is as follows:

- (a) Size and reach of the originator - different originators have varying levels of reach and access. Besides different originators operate in different geographies and consumer segments. Also the asset classes that they originate could be different depending on their target profitability, risk tolerance levels and support infrastructure for disbursing loans and making recoveries and collections. We usually look for originators possessing fair degree of diversification in their operation (metros/semi urban and rural markets), asset classes (collateralized assets are preferred such as cars, commercial vehicles, construction equipment etc.) and with a fairly robust collection infrastructure. Most of the regular names that we invest comply with these requirements.
- (b) Collection process, infrastructure and follow-up mechanism - we usually prefer originators who possess in-house capabilities and infrastructure as regards disbursements, collections and recoveries since it has been historically proven that such entities usually exhibit better asset quality in the long run. Most of the originators in our universe fall in this category.

- (c) Quality of MIS - data quality and timely availability is critical in the asset financing business. We stress on this aspect and look for entities which have robust MIS and have networked branches so that MIS generation is faster, efficient and senior management is in a position to take timely decisions.
- (d) Credit enhancement for different type of originator - this varies between originators and is usually determined and specified by the originator. The rating agency usually established the base case losses for the originator and for the specific asset category and then applies a stress factor depending on their own assessment of the originators financial health, and other strengths and weaknesses as also the prevailing macroeconomic factors which can impact overall asset quality.
- 4) The level of diversification with respect to the underlying assets, and risk mitigation measures for less diversified investments

Following framework will be applied while evaluating investment decision relating to a pool securitization transaction:

Characteristics/ Type of Pool	Mortgage Loan#	CV & CE\$	Cars	2 Wheelers	Micro Finance Pools @	Personal Loans	Single Sell Downs
Approximate Average maturity (in Months)*	36-72	12-30	12-30	12-18	3-15	12-24	12-24
Collateral margin (including cash, guarantees, excess interest spread, subordinate tranche)	Min :10	5-25	5-25	Min : 15	Min : 10	Min : 15	–
Average Loan to Value Ratio (%)	70-90	65-85	65-85	50-75	60-85	NA	–
Average seasoning of the Pool (mths)	6-12	3-6	3-6	3-6	1-3	3-6	–
Maximum single exposure range %	5-15	5-15	5-15	5-10	5-15	5-10	5-15
Average single exposure range %	10	10	10	7.5	10	7.5	10

- Kindly note that these are indicative ranges and final figures could vary depending upon the overall characteristics of the transaction and market conditions.
- Also since most of the transactions are composite in nature i.e they have more than one asset class the actual cash level would be finalized based on the final mix.
- #Mortgage loans are usually not clubbed with other asset classes since the average tenors are different for these asset classes. Hence mortgage loan pools are usually issued separately. Hence we have indicated 100 % under this asset class.
- @Micro finance pools are also issued separately and not clubbed with other asset classes. Hence we have indicated 100% under Micro Finance pools under maximum exposure.
- The percentages indicated in the table above is with reference to investments in securitized debt instruments, subject to investment restrictions as per the regulations.
- * The Scheme shall invest in securitized debt instruments maturing on or before the maturity of the Scheme.

\$ CV: Commercial Vehicles, CE: Construction Equipment

Risk mitigating measures

- Size of the loan - the overall fund raising plan of the obligor/originator is examined to assess the impact it would have on overall gearing and debt servicing.
- Average original maturity of the pool - This is also important from a point of indicating how quickly the pool will liquidate as the underlying assets mature and pay-off. This parameter would impact interest rate sensitivity of the security.
- Loan to Value Ratio - the LTV varies from issuer to issuer and also within asset classes. Based on our past experience and empirical data, we examine the LTV levels, since these have a critical link to the final recoveries in the case of default.

- (d) Average seasoning of the pool - this may also vary between originators. Higher seasoning at the start will offer better visibility on future delinquencies. Pools with higher average seasoning which depict low delinquencies usually tend to have satisfactory asset quality over the life of the transaction. We prefer to invest in pools which have average seasoning of at least 3-4 months at the start since any early delinquencies can be removed at the time of pool finalization.
- (e) Default rate distribution - this is studied using empirical data for the originator. This is also a critical data used by the rating agency in determining the credit enhancement levels to be stipulated.
- (f) Geographical Distribution - all pools usually have assets which are geographically diversified, since this reduces the default risk.
- (g) Credit enhancement facility - very critical especially in the case of retail pools since delinquencies and final asset losses are absorbed using cash so that there is no shortfall in investor servicing.
- (h) Liquid facility - in some cases in addition to the credit enhancement facility there is also a liquidity facility available which is useful to meet any shortfalls arising from delayed collections (delinquencies) in the pool. If an explicit liquidity facility is not provided in the transaction, then the credit enhancement facility is used for the said purpose.

Note: However that the liquidity facility is only available to be used for standard assets i.e assets wherein the days past due do not exceed 90.

- (i) Structure of the pool - we will invest in both single loan securitization transactions and retail pool securitization transactions. Single loan securitization transactions will essentially be loans which are repackaged as pass through certificates (PTCs) and sold to potential investors. These may be collateralized i.e. backed by certain fixed assets of the issuers. In the case of retail pool securitization transactions, we will have underlying retail loans from various asset classes such as cars, CVs, construction equipment etc. The above framework including the above mentioned risk mitigating measures will be applied at the time of analyzing pool PTC transactions. In the case of composite PTC pools i.e. pools with more than one asset class, each of the asset categories will be assessed separately in order to arrive at the overall risk profile of the composite pool.
- 5) Minimum retention period of the debt by originator prior to securitization - there is usually no stipulation on the minimum retention period of debt by the originator in the case of single loan PTCs. We follow our usual investment guidelines in evaluating the eligibility of the security for our portfolios. This is usually in compliance with extant regulations on securitization.

In the case of ABS securities (pool PTCs), assets are usually sold down by the originators after a period of 1-2 months from their date of origination. This helps in identifying any delinquencies in these assets and creating a high quality pool.

- 6) Minimum retention percentage by originator of debts to be securitized - we usually do not stipulate a minimum retention percentage of the debt securitized by the originator. Our investment decision is based on our independent assessment of the credit risk/other risks specific to the transaction.
- 7) The mechanism to tackle conflict of interest when the mutual fund invests in securitized debt of an originator and the originator in turn makes investments in that particular Scheme of the fund - all investment decisions are led by stand-alone assessments of the securities (PTC) from a credit, liquidity and market risks amongst others. Our internal process and reporting platforms are designed to ensure complete independence of the credit research & investment process from sales business.
- 8) The resources and mechanism of individual risk assessment with the AMC for monitoring investment in securitized debt - in addition to the usual practice followed in the case of plain vanilla debt ratings, we will follow a process of regular monitoring of rating movement. Monthly data on pool performance is received in the case of ABS transactions from the Trustee to the transaction. These reports are scanned to check for any change in asset quality and related impact on debt servicing and any impact that it can have on the credit ratings.

DERIVATIVE STRATEGY

The Scheme may invest in various derivative instruments which are permissible under the applicable regulations. Such investments shall be subject to the investment objective and strategy of the Scheme and the internal limits if any, as laid down from time to time. These include but are not limited to futures (both stock and index) and options (stock and index). Derivatives are financial contracts of pre-determined fixed duration, whose values are derived from the value of an underlying primary financial instrument such as interest rates, exchange rates, commodities and equities. There are several advantages in using derivatives in the portfolio. The use of derivatives provides flexibility to the Scheme to hedge whole or part of the portfolio.

The risks associated with derivatives are similar to those associated with underlying investments. The additional risks of using derivative strategies could be on account of:

- Illiquidity;
- Potential mispricing of the Futures/Options;
- Lack of opportunity;
- Inability of derivatives to correlate perfectly with the underlying (Indices, Assets, Exchange Rates);
- Cost of hedge can be higher than adverse impact of market movements;
- An exposure to derivatives in excess of the hedging requirements can lead to losses;
- An exposure to derivatives can also limit the profits from a genuine investment transaction.
- The prices which are seen on the screen need not be the same at which execution will take place.

For detailed risks associated with use of derivatives, please refer paragraph "Scheme Specific Risk Factors"

The following section describes the concepts and examples of derivatives that may be used by the fund manager:-

Futures:-

A futures contract is a standardized contract between two parties where one of the parties commits to sell, and the other to buy, a stipulated quantity of a security at an agreed price on or before a given date in the future. Currently, futures contracts have a maximum expiration cycle of 3-months. Three contracts are available for trading, with 1 month, 2 months and 3 months expiry respectively. A new contract is introduced on the next trading day following the expiry of the relevant monthly contract. Futures contracts typically expire on the last Thursday of the month.

Basic Structure of an Index Future:- The Index futures are instruments designed to give exposure to the equity markets indices. The BSE Limited ('BSE') and the National Stock Exchange of India Limited ('NSE') have trading in index futures of 1, 2 and 3 month maturities. The pricing of an index future is the function of the underlying index and short term interest rates. Index futures are cash settled; there is no delivery of the underlying stocks.

Example using hypothetical figures:

1 month S & P CNX NIFTY Future

Say, the Mutual Fund buys 1,000 futures contracts; each contract value is 100 times futures index price

Spot Index : 4200.00

Future Price on day 1 : 4210.00

Say, Margin : 10%

On the date of Settlement:

Future Price = Closing Spot Price = 4225

Profits for the Fund = $(4225-4210) \times 1000 \times 100 = \text{Rs. } 1,500,000$

Please note that the above example is given for illustration purposes only. Some assumptions have been made for the sake of simplicity. The net impact for the Scheme will be in terms of the difference of the closing price of the index and cost price. Thus, it is clear from the example that the profit or loss for the Scheme will be the difference of the closing price (which can be higher or lower than the purchase price) and the purchase price. The risks associated with index futures are similar to those associated with equity investments. Additional risks could be on account of illiquidity and potential mispricing of the futures.

Basic Structure of a Stock Future:- A futures contract on a stock gives its owner the right and obligation to buy or sell the stocks. The single stock futures traded on NSE are cash settled; there is no delivery of the underlying stocks on the expiration date. A purchase or sale of futures on a security gives the trader essentially the same price exposure as a purchase or sale of the security itself. In this regard, trading in stock futures is no different from trading the security itself.

Example using hypothetical figures:

The Mutual Fund holds shares of XYZ Ltd., the current price of which is Rs. 500 per share. The Mutual Fund sells one month futures on the shares of XYZ Ltd. at the rate of Rs. 540. If the price of the stock falls, the Mutual Fund will suffer losses on the stock position held. However, in such a scenario, there will be a profit on the short futures position.

At the end of the period, the price of the stock falls to Rs. 450 and this fall in the price of the stock results in a fall in the price of futures to Rs. 470. There will be a loss of Rs. 50 per share (Rs. 500– Rs. 450) on the holding of the stock, which will be offset by the profits of Rs. 70 (Rs. 540 – Rs. 470) made on the short futures position.

Please note that the above example is given for illustration purposes only. Some assumptions have been made for the sake of simplicity. Certain factors like margins and other related costs have been ignored. The risks associated with stock futures are similar to those associated with equity investments. Additional risks could be on account of illiquidity and potential mispricing of the futures.

Option Contracts (Stock and Index):

In the global financial markets, particularly securities markets, options have been, for quite many years, a means of conveying rights from one party to another at a specified price on or before a specific date, at a cost, which is called Premium. The underlying instrument can be an individual stock or a stock index such as the BSE Sensex (such options being referred to as index options). Options are used widely the world over to manage risk and generate income. options may be preferred over futures as they provide asymmetric pay offs.

There are broadly two kinds of Options trade viz. Long & Short. A **Long Call** is buying a Call option to purchase the stock at a later date at a fixed price called the strike price. A **Long Put** on the other hand is buying Put option i.e. an option to sell the stock at a later date at the strike price. Similarly A **Short Call** is selling a Call option which is also called writing a Call option by which the option writer has an obligation to sell the stock to the call buyer at the strike price. A **Short Put** is to sell or write a Put option i.e. an obligation to buy the stock from the Put buyer at the strike price. The specified price at which the shares are contracted to be purchased or sold is called the strike price. Options that can be exercised on or before the expiration date are called American Options, while those that can be exercised only on the expiration date are called European Options. Option contracts are designated by the type of option, name of the underlying, expiry month and the strike price.

Example for Options

Buying a Call Option: Let us assume that the Scheme buys a call option of ABC Ltd. with strike price of Rs. 3500, at a premium of Rs. 100. If the market price of ABC Ltd on the expiration date is more than Rs. 3500, the option will be exercised. The Scheme will earn profits once the share price crosses Rs. 3600 (Strike Price + Premium i.e. 3500+100). Suppose the price of the stock is Rs. 3800, the option will be exercised and the Scheme will buy 1 share of ABC Ltd. from the seller of the option at Rs 3500 and sell it in the market at Rs. 3800, making a profit of Rs. 200. In another scenario, if on the expiration date the stock price falls below Rs. 3500, say it touches Rs. 3000, the Scheme will choose not to exercise the option. In this case the Scheme loses the premium (Rs. 100), which will be the profit earned by the seller of the call option.

Buying a Put Option: Let us assume that the Scheme owns shares of ABC Ltd., which are trading at Rs. 3500. The fund manager expects the price to rise to Rs. 3800 but at the same time wants to protect the downside. So, he can buy a put option at Rs. 3500 by paying a premium of, say, Rs. 100. If the stock falls to say Rs 3200 by expiry, the option becomes in-the-money by Rs. 300 and the schemes loses only the initial premium paid to buy the hedge. On the contrary, if the fund manager's view turns out to be right and the stock actually rallies to Rs. 3800, the scheme gains Rs. 300 from the stock and the hedging cost paid to buy the protection is the loss. Thus, adjusted for the hedging cost, the scheme gains Rs. 200 from the trade.

Writing a Call Option: Let us assume that the Fund owns shares of ABC Ltd., which are trading at Rs. 3500. The Fund wishes to sell these shares at Rs.3800. It can write call option at Rs. 3800 and earn a premium of, say, Rs. 50. If the option is not exercised, the Fund earns a premium and if the stock price does reach Rs. 3800, the premium adds to the profits that the Fund would have booked by selling at that price. In this case, if the stock price of ABC Ltd. is less then Rs. 3800, the Fund earns Rs 50 and if it closes above Rs. 3800 and the option gets exercised by the buyer, the Fund gets the strike price of Rs. 3800 plus a premium of Rs. 50, i.e. effectively Rs. 3850. Any loss because of stock price movement beyond Rs. 3850 is actually an opportunity loss, as the Fund would otherwise have sold the shares at Rs. 3800.

The above example is hypothetical in nature and all figures are assumed for the purpose of illustrating the use of call options in individual stocks. Similarly, analogies can be drawn to illustrate the use of put options in individual stocks, and call and put options in index.

Note on Risk: The risk (loss) for an option buyer is limited to the premium paid, while the risk (loss) of an option writer is unlimited, the latter's gain being limited to the premiums earned. However, in the case of the Fund, all option positions will have underlying assets and therefore all losses due to price-movement beyond the strike price will actually be an opportunity loss. The writer of a put option bears a risk of loss if the value of the underlying asset declines below the strike price. The writer of a call option bears a risk of loss if the value of the underlying asset increases above the strike price.

The Scheme will use options only for the purpose of hedging and portfolio balancing or for any purpose as permitted by Regulations from time to time. Internal controls / limits for managing risks associated with options have been set up / laid down,

Besides, the purchase and sale of Index and Single stock equity derivatives, the Fund Manager may also use some of the below-mentioned strategies for the purpose of efficient portfolio management:

(a) Reverse Arbitrage:

This strategy will be adopted if the cash price of a stock (say "ABC") is reasonably greater than single stock futures of ABC, then the Investment Manager may sell cash position in ABC and buy single stock futures of ABC. In this case the Investment Manager will still be having a long-term view on the stock ABC but is able to minimize the cost of holding of ABC.

(b) Arbitrage:

This strategy will be adopted if the single stock future of ABC is reasonably greater than the cash price of ABC, then the Investment Manager will buy the shares of ABC in the cash market and sell equivalent numbers of single stock futures of ABC. In this case the Investment Manager may not have an investment view of the stock ABC but would like to enhance the portfolio value.

(c) Portfolio Hedging:

Portfolio Hedging will be adopted –

- (i) If in an already invested portfolio of a Scheme, the Investment Manager is expecting a market correction, the Investment Manager may sell Index Futures to insulate the portfolio from the market related risks.
- (ii) If there are significant inflows to the Scheme and the market expectations are bullish, the Investment Manager may buy Index Futures to continue participation in the equity markets.

(d) Alpha Strategy:

The Scheme will seek to generate alpha by superior stock selection and removing market risks by selling appropriate index futures / options. For example, one can seek to generate positive alpha by buying a bank stock and selling Bank Nifty future.

Execution of these strategies depends upon the ability of the fund manager to identify and execute based on such opportunities. These involve significant uncertainties and decision of fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies.

Investment in Fixed Income Derivative Instruments:

The Scheme may use Derivative instruments like interest rate swaps like overnight indexed swaps (OIS), forward rate agreements, interest rate futures(as and when permitted) or such other Derivative instruments as may be permitted under the applicable regulations.

Derivatives will be used for the purpose of hedging, and portfolio balancing or such other purpose as may be permitted under the regulations and Guidelines from time to time.

As per the guidelines issued by RBI permitting participation by Mutual Funds in interest rate swaps and forward rate agreements, the Fund will use Derivative instruments for the purpose of hedging and portfolio balancing. The Fund may also use derivatives for such purposes as maybe permitted from time to time. Further, the guidelines issued by RBI from time to time for forward rate agreements and interest rate swaps and other derivative products would be adhered to by the Mutual Fund. IRS and FRAs do also have inherent credit and settlement risks. However, these risks are substantially reduced as they are limited to the interest streams and not the notional principal amounts.

Investments in Derivatives will be in accordance with the extant SEBI regulations / guidelines. The circumstances under which such transactions would be entered into would be when, for example using the IRS route it is possible to generate better returns / meet the objective of the Scheme at a lower cost. e.g. if buying a 2 Yr Mibor based instrument and receiving the 2 Yr swap rate yields better return than the 2 Yr AAA corporate, the Scheme would endeavor to do that. Alternatively, the Scheme would also look to hedge existing fixed rate positions if the view on interest rates is that it would likely rise in the future.

The following information provides a basic idea as to the nature of the Derivative instruments proposed to be used by the Fund and the benefits and risks attached therewith. Please note that the examples have been given for illustration purposes only.

Using Overnight Indexed Swaps

In a rising interest rate scenario, the Scheme may enhance returns by hedging the risk on its fixed interest paying assets by entering into an OIS contract where the Scheme agrees to pay a fixed interest rate on a specified notional amount, for a pre determined tenor and receives floating interest rate payments on the same notional amount. The fixed returns from the Scheme assets and the fixed interest payments to be made by the Scheme on account of the OIS transaction offset each other and the Scheme benefits on the floating interest payments that it receives. The Scheme may enter into an opposite position in case of a falling interest rate scenario, i.e. to hedge the floating rate assets in its portfolio the Scheme enters into an OIS transaction wherein it receives a fixed interest rate on a specified notional amount for a specified time period and pays a floating interest rate on the same notional amount. The floating interest payments that the Scheme receives on its floating rate securities and the floating interest payments that the Scheme has to pay on account of the OIS transaction offset each other and the Scheme benefits on the fixed interest payments that it receives in such a scenario.

Swap

Assume that the Scheme has a Rs. 20 Crore floating rate investment linked to MIBOR (Mumbai Inter Bank Offered Rate). Hence, the Scheme is currently running an interest rate risk and stands to lose if the interest rate moves down. To hedge this interest rate risk, the Scheme can enter into a 6 month MIBOR swap. Through this swap, the Scheme will receive a fixed predetermined rate (assume 12%) and pays the "benchmark rate" (MIBOR), which is fixed by the NSE or any other agency. This swap would effectively lock-in the rate of 12% for the next 6 months, eliminating the daily interest rate risk. This transaction is usually routed through an intermediary who runs a book and matches deals between various counterparties. The steps will be as follows:

Assuming the swap is for Rs. 20 Crores for June 1, 2018 to December 1, 2018. The Scheme is a fixed rate receiver at 12% and the counterparty is a floating rate receiver at the overnight rate on a compounded basis (say NSE MIBOR).

On June 1, 2018 the Scheme and the counterparty will exchange only a contract of having entered this swap. This documentation would be as per International Swap Dealers Association (ISDA) norms.

On a daily basis, the benchmark rate fixed by NSE will be tracked by them. On December 1, 2018 they will calculate the following:

- The Scheme is entitled to receive interest on Rs. 20 Crores at 12% for 184 days i.e. Rs. 1.21 Crores, (this amount is known at the time the swap was concluded) and will pay the compounded benchmark rate;
- The counterparty is entitled to receive daily compounded call rate for 184 days & pay 12% fixed.
- On December 1, 2018, if the total interest on the daily overnight compounded benchmark rate is higher than Rs. 1.21 Crores, the Scheme will pay the difference to the counterparty. If the daily compounded benchmark rate is lower, then the counterparty will pay the Scheme the difference.
- Effectively the Scheme earns interest at the rate of 12% p.a. for six months without lending money for 6 months fixed, while the counterparty pays interest @ 12% p.a. for 6 months on Rs. 20 Crores, without borrowing for 6 months fixed.

The above example illustrates the use of Derivatives for hedging and optimizing the investment portfolio. Swaps have their own drawbacks like credit risk, settlement risk. However, these risks are substantially reduced as the amount involved is interest streams and not principal.

Forward Rate Agreement

Assume that on June 30, 2018, the 30 day commercial paper (CP) rate is 8% and the Scheme has an investment in a CP of face value Rs. 50 Crores, which is going to mature on July 31, 2018. If the interest rates are likely to remain stable or decline after July 31, 2018, and if the fund manager, who wants to re-deploy the maturity proceeds for 1 more month does not want to take the risk of interest rates going down, he can then enter into a following Forward Rate Agreement (FRA) say as on June 30, 2018:

He can receive 1 x 2 FRA on June 30, 2015 at 8.00% (FRA rate for 1 months lending in 1 months time) on the notional amount of Rs. 50 Crores, with a reference rate of 30 day CP benchmark. If the CP benchmark on the settlement date i.e. July 30, 2018 falls to 7.75%, then the Scheme receives the difference 8.00 – 7.75 i.e. 25 basis points on the notional amount Rs. 50 Crores.

Interest Rate Futures

Assume that the Scheme holds an Indian ten year benchmark and the fund manager has a view that the yields will go up in the near future leading to decrease in value of the investment and subsequent decrease in NAV of the Scheme. The fund manager decides to use Interest Rate Futures to mitigate the risk of decline of NAV of the Scheme.

20th October 2018

- The benchmark 10 year paper 6.88% 2017 is trading at INR 98.00 at a yield of 7.19%.

- December 2018 futures contract on the 10 year notional 7% coupon bearing Government paper is trading at a yield of 7.29% at a price of INR 98.50.
- The mutual fund decides to hedge the exposure by taking a short position in December 2018 interest rate futures contract.

25th November 2018

- As expected by the fund manager the yield of the benchmark ten year paper has increased to 8% and the price has decreased to 92.70.
- The December 2018 futures contract is trading at a price of INR 93.17 indicating a yield of 8.05%
- The mutual fund unwinds the short position by buying the December 2018 futures contract. The transaction results in profit from the futures position, against the corresponding loss from the Government of India security position.

For details of risk factors relating to use of Derivatives, the investors are advised to refer to Scheme Specific Risk Factors.

Overview of Debt Market in India

The Indian bond market comprises mainly of Government securities, bonds issued by Public Sector Undertakings (PSU), Development Financial Institutions (DFI) and infrastructure related agencies, debentures and money market instruments issued by the corporate sectors and banks.

The Indian bond market has witnessed increased issuance of bonds from government sponsored institutions, DFIs, and infrastructure related agencies since 1995. These bonds are rated by credit rating agencies like CRISIL, ICRA, CARE and FITCH. They constitute reasonable amount of the trading volume on the Wholesale Debt Market platform of National Stock Exchange and are widely held by market participants because of their liquidity and reduced risk perception due to the government stake in some of them.

The Indian corporate sector has also been frequently raising capital through issuance of non-convertible debentures and commercial papers. Most of the money is raised through the "Private Placement" route. These privately debentures are mostly rated by rating agencies. While some of them trade very actively, most of them are not very liquid, due to which they normally trade at a marginally higher yield than bonds issued by PSU and other government sponsored agencies.

The securitised debt market in India has grown substantially since the first recorded transaction in 1990. In the last few years, prominent banking and non-banking financial institutions have chosen the securitisation route. Although asset classes chosen have concentrated mostly on auto and hire purchase receivables, the 'Mortgage Backed Securities' are also being issued in the last few years. The mutual funds have shown good interest and appetite for such asset backed securities.

The Government of India routinely issues government securities and Treasury bills for liquidity and fiscal management. While the government issues Treasury bills for 91 days, 182 days and 364 days in a discounted form, the coupon-bearing government securities are issued for maturity ranging from 1 year to as high as 30 years. Both the Treasury bills and coupon-bearing securities are auctioned by the RBI on behalf of the Government of India.

Indian private sector banks routinely issue Certificate of Deposits to investors at attractive rates. They are less liquid when compared to Treasury Bills and Commercial Papers (CPs). CPs are compulsorily rated by rating agencies such as CRISIL, ICRA, CARE and FITCH and are issued for a tenor ranging from 15 days to 364 days. They are mostly issued in dematerialised form. CPs are relatively liquid instruments.

Risk Control

Since investing requires disciplined risk management, the AMC would incorporate adequate safeguards for controlling risks in the portfolio construction process.

The risk control process involves reducing risks through portfolio diversification, taking care however not to dilute returns in the process. The AMC believes that this diversification would help achieve the desired level of consistency in returns. Stock specific risk will be minimized by investing only in those companies that have been analyzed by the Investment Team at the AMC. For investments in debt securities, the AMC aims to identify securities, which offer superior levels of yield at lower levels of risks. With the aim of controlling risks, rigorous and in-depth credit evaluation of the securities proposed to be invested in, will be carried out by the investment team of the AMC. Rated Debt instruments in which the Scheme invests will be of investment grade as rated by a credit rating agency. The AMC will be guided but not limited by the ratings of Rating Agencies such as CRISIL, CARE, ICRA and Fitch or any other rating agencies that may be registered with SEBI from time to time. In case a debt instrument is not rated, investment will be in accordance with Guidelines approved by the Board. Further, all investments in the unrated paper are periodically reviewed by Investment Committee and the Board of AMC & Trustee Company.

For its investments into Equity instruments, the Scheme will invest across a range of market capitalisations with a preference for medium and large companies. A top down and bottom up approach will be used to invest in equity and equity related instruments. Investments will be pursued in select sectors based on the Investment Team's analysis of business cycles, regulatory reforms, competitive advantage etc. Selective stock picking will be done from these sectors. The fund manager in selecting scrips will focus on the fundamentals of the business, the industry structure, the quality of management, sensitivity to economic factors, the financial strength of the company and the key earnings drivers. The Scheme may also use various derivatives and hedging products from time to time, as would be available and permitted.

Overseas Investments by the Scheme

According to SEBI circular no. SEBI/IMD/CIR No. 7/104753/07 dated September 26, 2007 mutual funds can invest in ADRs/GDRs/other specified foreign securities and as per SEBI circular no. SEBI/IMD/CIR No. 2/122577/08 dated April 08, 2008, such investments are subject to an overall limit of US\$ 7 bn. for all mutual funds put together. The Mutual Funds have been allowed an individual limit of US\$ 300 mn for overseas investments. The Scheme(s) may, with the approval of SEBI/ RBI invest in ADRs/ GDRs/ other foreign securities as specified by SEBI.

Please refer to "Specific Risk Factors" for details on the risk factors associated with Overseas Investment.

The Mutual Fund may, where necessary will appoint intermediaries as sub-managers, sub-custodians, etc. for managing and administering such investments. The appointment of such intermediaries shall be in accordance with the applicable requirements of SEBI and within the permissible ceilings of expenses.

Portfolio Turnover

Portfolio turnover is defined as the aggregate of purchases and sales as a percentage of the corpus of the Scheme during a specified period of time. Portfolio turnover in the Scheme will be a function of market opportunities. The economic environment changes on a continuous basis and exposes debt portfolio to systematic as well as nonsystematic risk. Consequently, it is difficult to estimate with any reasonable measure of accuracy, the likely turnover in the portfolio.

The Investment Manager will endeavour to optimise portfolio turnover to optimise risk adjusted return keeping in mind the cost associated with it. A high portfolio turnover rate is not necessarily a drag on portfolio performance and may be representative of arbitrage opportunities that exist for scrip/securities held in the portfolio rather than an indication of a change in AMC's view on a scrip, etc.

Investments by the AMC in the Scheme

The AMC may invest in the Scheme, subject to the Regulations and to the extent permitted by its Board from time to time. As per the existing Regulations, the AMC will not charge investment management and advisory fee on the investment made by it in the Scheme.

F. FUNDAMENTAL ATTRIBUTES

Following are the Fundamental Attributes of the Scheme, in terms of Regulation 18 (15A) of the SEBI (MF) Regulations:

(i) Type of a Scheme

- An open ended hybrid scheme investing predominantly in equity and equity related instruments

(ii) Investment Objective and Asset Allocation

- Refer Section II, Point B & C

(iii) Terms of Issue

- Liquidity provisions such as listing, repurchase, redemption
Refer Section III, Point no. B – Ongoing Offer Details
- Aggregate fees and expenses charged to the Scheme
Refer Section IV, Point no. B – Annual Scheme recurring Expenses.
- Any safety net or guarantee provided.

In accordance with Regulation 18(15A) of the SEBI (MF) Regulations, the Trustees shall ensure that no change in the fundamental attributes of the Scheme and the Plan/Option there under or the trust or fee and expenses payable or any other change which would modify the Scheme and the Plan/Option there under and affect the interests of Unitholders is carried out unless:

- A written communication about the proposed change is sent to each Unitholder and an advertisement is given in one English daily newspaper having nationwide circulation as well as in a newspaper published in the language of the region where the Head Office of the Mutual Fund is situated; and
- The Unitholders are given an option for a period of 30 days to exit at the prevailing Net Asset Value without any exit load.

G. HOW WILL THE SCHEME BENCHMARK ITS PERFORMANCE?

CRISIL Hybrid 35 + 65 Aggressive Index is the Benchmark for the Scheme.

CRISIL Hybrid 35 + 65 Aggressive Index seeks to track the performance of an equity-oriented hybrid portfolio having a blend of the Nifty 50 Index (65%) and CRISIL Composite Bond Fund Index (35%). PGIM India Hybrid Equity Fund is expected to have a similar asset allocation; hence the CRISIL Hybrid 35 + 65 Aggressive Index is suitable to be used as a benchmark. The Total Return (TR) Version of the Index will be used for performance comparison.

The Trustee/AMC reserves the right to change the benchmark for evaluating the performance of the Scheme from time to time, in conformity with the investment objective of the Scheme and the appropriateness of the benchmark, subject to SEBI guidelines and other prevalent guidelines.

I. WHAT ARE THE INVESTMENT RESTRICTIONS?

Pursuant to Regulations, specifically the Seventh Schedule and amendments thereto, the following investment restrictions are currently applicable to the Scheme:

- The Scheme shall not invest more than 10% of its NAV in the equity shares or equity related instruments of any company;
- The Scheme shall not invest more than 5% of its net assets in unlisted equity shares or equity related instruments;
- The Mutual Fund under all its Schemes shall not own more than 10% of any company's paid up capital carrying voting rights;

Provided, investment in the asset management company or the trustee company of a mutual fund shall be governed by clause (a), of sub-regulation (1), of regulation 7B;

- The Scheme shall not invest more than 10% of its net assets in debt instruments comprising money market & non money market instruments issued by a single issuer, which are rated not below investment grade by a credit rating agency authorized to carry out such activity under the SEBI Act. Such investment limit may be extended to 12% of the net assets of the Scheme with the prior approval of the Trustees and the Board of the AMC. Such limit shall not be applicable for investments in government securities, treasury bills & Tri-Party Repo. Provided further that investment within such limit can be made in mortgage backed securitised debts which are rated not below investment grade by a credit rating agency registered with SEBI.
- The Scheme shall not invest more than 10% of its net assets in unrated debt instruments issued by a single issuer and the total investment in such instruments shall not exceed 25% of the net assets of the Scheme. All such investments shall be made with the prior approval of the Trustees and the Board of the AMC or a committee constituted in this behalf.
- The Scheme may invest in another scheme of the Mutual Fund or any other mutual fund. The aggregate inter-scheme investment made by all the schemes under the same management or in schemes under management of any other asset management company shall not exceed 5% of the net asset value of the Fund. No investment management fees shall be charged by the Scheme for investing in other schemes of the Mutual Fund or in the schemes of any other mutual fund.
- The Scheme shall not make any investment in:
 - a. Any unlisted Security of an associate or group company of the Sponsor; or
 - b. Any Security issued by way of private placement by an associate or group company of the Sponsor; or
 - c. the listed Securities of group companies of the Sponsor which is in excess of 25% of the net assets.
- Transfer of investments from one scheme to another scheme in the Mutual Fund is permitted provided –
 - a) such transfers are done at the prevailing market price for quoted instruments on Spot Basis (Spot Basis shall have the same meaning as specified by a stock exchange for spot transactions); and

b) the Securities so transferred shall be in conformity with the investment objective of the Scheme to which such transfer has been made.

- The Mutual Fund shall get the Securities purchased or transferred in the name of the Fund on account of the Scheme, wherever investments are intended to be of a long-term nature.
- The Mutual Fund shall buy and sell securities on the basis of deliveries and shall in all cases of purchases take delivery of the relevant securities and in all cases of sale, deliver the securities. The Mutual Fund may however engage in short selling of securities in accordance with the framework relating to short selling and securities lending and borrowing specified by SEBI. Further that the Mutual Fund shall enter into derivatives transactions in a recognised stock exchange, subject to the framework specified by SEBI. The sale of government securities already contracted for purchase shall be permitted in accordance with the guidelines issued by the RBI in this regard.
- The Scheme shall not invest in a Fund of Funds scheme.
- Participation of scheme in repo of corporate debt securities:

In accordance with SEBI circular no. CIR/IMD/DF/19/2011 dated November 11, 2011 and CIR/IMD/DF/23/2012 dated November 15, 2012, schemes of the Mutual Fund shall participate in the 'Corporate Bond Repo' transactions as per guidelines issued by Reserve Bank of India (RBI) from time to time. Currently the applicable guidelines are as under:

- a. Gross exposure of the scheme to repo transactions in corporate debt securities shall not be more than 10% of the net assets of the concerned scheme.
- b. The cumulative gross exposure through repo transactions in corporate debt securities along with equity, debt, units of REITs & INVITs and derivatives shall not exceed 100% of the net assets of the concerned scheme.
- c. Mutual Funds shall participate in repo transactions only in 'AA and above' rated corporate debt securities.
- d. In terms of Regulation 44(2) mutual funds shall borrow through repo transactions only if the tenor of the transaction does not exceed a period of six months.

The investment restrictions applicable to the Scheme's participation in the Corporate Bond repos will also be as prescribed or varied by SEBI or by the Board of PGIM India Trustees Pvt. Ltd. (subject to SEBI requirements) from time to time.

The following guidelines shall be followed by PGIM India Mutual Fund for participating in repo in Corporate debt securities, which have been approved by the Board of AMC and Trustee Company:

- **Category of Counterparty to be considered for making investment:**
All entities eligible for transacting in Corporate Bond repos as defined by SEBI and RBI shall be considered for repo transactions
- **Credit rating of Counterparty to be considered for making investment:**
The scheme shall participate in Corporate Bond repo transactions with counterparties having a minimum investment grade rating and approved by the Investment Committee on a case-to-case basis. In case a Counterparty is unrated, the Investment Committee will decide/ assign a rating to the Counterparty and report the same to the Board.
- **Tenor of Repo and Collateral:**
As a repo seller (borrowing), the scheme will borrow cash for a period not exceeding 6 months or as per extant regulations. As a repo buyer, the Scheme are allowed to undertake the transactions (lending) for maximum maturity upto one year or such other terms as may be approved by the Investment Committee. There shall be no restriction / limitation on the tenor of the underlying collateral that is being accepted.

Applicable haircuts:

As per RBI circular RBI/2012-13/365 IDMD.PCD.09/14.03.02/2012-13 dated 07/01/2013, all Corporate Bond repo transaction will be subject to a minimum haircut given as given below:

- a. AAA : 7.50%
- b. AA+ : 8.50%
- c. AA : 10.00%

The haircut will be applicable on the prevailing market value of the said security on the prevailing date of trade. However, the fund manager may ask for a higher haircut (while lending) or give a higher haircut (while borrowing) depending on the prevailing market and liquidity situation.

Risks envisaged and Mitigation measures for repo transactions:

Counterparty Risks - Risks could arise if the Counterparty does not return the security (in a borrowing transaction) as contracted or pay interest (lending transaction) on the due date. This risk is largely mitigated, as the choice of counterparties is 'restricted' and their credit ratings and overall credit risk levels are taken into account before entering into such transactions.

Settlement Risks - Operational risks are lower as such trades are settled on a DVP (Delivery versus Payment - Safe settlement) basis. The trades are settled on a bilateral basis in the OTC segment.

Collateral / Credit Risk - In the event of the scheme being unable to pay back the money to the Counterparty as contracted, the counterparty may dispose of the assets (as they have sufficient margin) and the net proceeds if any after such disposal may be refunded to the scheme. The value of the collateral will be monitored on a daily basis and shortfalls if any will lead to demand on the counterparty to top up collateral. Inability to comply with top up requests could lead to liquidation of security / collateral and an early / premature termination of the agreement.

- The Scheme will comply with the following restrictions for trading in exchange traded derivatives, as specified by SEBI vide its circular DNP/Cir-29/2005 dated September 14, 2005, Circular DNP/Cir-30/2006 dated January 20, 2006 and Circular DNP/Cir-31/2006 dated September 22, 2006:

i. Position limit for the Mutual Fund in equity index options contracts:

- a. The Mutual Fund position limit in all equity index options contracts on a particular underlying index shall be Rs. 500 Crores or 15% of the total open interest of the market in equity index option contracts, whichever is higher, per Stock Exchange.
- b. This limit would be applicable on open positions in all options contracts on a particular underlying index.

ii. Position limit for the Mutual Fund in equity index futures contracts:

- a. The Mutual Fund position limit in all equity index futures contracts on a particular underlying index shall be Rs. 500 Crores or 15% of the total open interest in the market in equity index futures contracts, whichever is higher, per Stock Exchange.
- b. This limit would be applicable on open positions in all futures contracts on a particular underlying index.

iii. Additional position limit for hedging:

In addition to the position limits at point (i) and (ii) above, Mutual Fund may take exposure in equity index derivatives subject to the following limits:

- a. Short positions in index derivatives (short futures, short calls and long puts) shall not exceed (in notional value) the Mutual Fund's holding of stocks.
- b. Long positions in index derivatives (long futures, long calls and short puts) shall not exceed (in notional value) the Mutual Fund's holding of cash, government securities, T-Bills and similar instruments.

iv. Position limit for the Mutual Fund for stock based derivative contracts:

The Mutual Fund position limit in a derivative contract on a particular underlying stock, i.e. stock option contracts and stock futures contracts:

— The combined futures and options position limit shall be 20% of the applicable Market Wide Position Limit (MWPL).

v. Position limit for the Scheme:

The position limits for the Scheme and disclosure requirements are as follows—

- a. For stock option and stock futures contracts, the gross open position across all derivative contracts on a particular underlying stock of a scheme of the Mutual Fund shall not exceed the higher of:

1% of the free float market capitalisation (in terms of number of shares)

Or

5% of the open interest in the derivative contracts on a particular underlying stock (in terms of number of contracts).

- b. This position limit shall be applicable on the combined position in all derivative contracts on an underlying stock at a Stock Exchange
- c. For index based contracts, the Mutual Fund shall disclose the total open interest held by the Scheme or all schemes put together in a particular underlying index, if such open interest equals to or exceeds 15% of the open interest of all derivative contracts on that underlying index.

Further, SEBI, vide its circular no. Cir/IMD/DF/11/2010 dated August 18, 2010 read with SEBI/HO/IMD/DF2/CIR/P/2019/17 dated January 16, 2019 has prescribed the following investment restrictions with respect to investment in derivatives:

- a) The cumulative gross exposure through equity, debt and derivative positions should not exceed 100% of the net assets of the scheme. Cash or cash equivalents with residual maturity of less than 91 days may be treated as not creating any exposure.
- b) The total exposure related to option premium paid must not exceed 20% of the net assets of the scheme.
- c) Exposure due to hedging positions may not be included in the above mentioned limits subject to the following:-
 - (i) Hedging positions are the derivative positions that reduce possible losses on an existing position in securities and till the existing position remains;
 - (ii) Hedging positions cannot be taken for existing derivative positions. Exposure due to such positions shall have to be added and treated under limits mentioned in Point (a) above.
 - (iii) Any derivative instrument used to hedge has the same underlying security as the existing position being hedged.
 - (iv) The quantity of underlying associated with the derivative position taken for hedging purposes does not exceed the quantity of the existing position against which hedge has been taken.
- d) Mutual Fund may enter into plain vanilla interest rate swaps for hedging purposes. The counter party in such transactions has to be an entity recognized as a market maker by RBI. Further, the value of the notional principal in such cases must not exceed the value of respective existing assets being hedged by the scheme. Exposure to a single counterparty in such transactions should not exceed 10% of the net assets of the scheme.
- e) Exposure due to derivative positions taken for hedging purposes in excess of the underlying position against which the hedging position has been taken, shall be treated under the limits mentioned in Point (a) above.
- f) Investment Restrictions for Covered Call strategy -

Mutual Fund schemes (excluding ETFs and Index funds) can write Call options under a covered strategy for constituent stocks of NIFTY 50 and BSE SENSEX subject to the following:

- (i) The total notional value (taking into account strike price as well as premium value) of call options written by a scheme shall not exceed 15% of the total market value of equity shares held in that scheme.
 - (ii) The total number of shares underlying the call options written shall not exceed 30% of the unencumbered shares of a particular company held in the scheme. The unencumbered shares in a scheme shall mean shares that are not part of Securities Lending and Borrowing Mechanism (SLBM), margin or any other kind of encumbrances.
 - (iii) At all points of time the Mutual Fund scheme shall comply with the provisions at points (i) and (ii) above. In case of any passive breach of the requirement at paragraph (i) above, the respective scheme shall have 7 trading days to rebalance the portfolio. During the rebalancing period, no additional call options can be written in the said scheme.
 - (iv) In case a Mutual Fund scheme needs to sell securities on which a call option is written under a covered call strategy, it must ensure compliance with paragraphs (i) and (ii) above while selling the securities.
 - (v) In no case, a scheme shall write a call option without holding the underlying equity shares. A call option can be written only on shares which are not hedged using other derivative contracts.
 - (vi) The premium received shall be within the requirements prescribed in terms of SEBI circular dated August 18, 2010 i.e. the total gross exposure related to option premium paid and received must not exceed 20% of the net assets of the scheme.
 - (vii) The exposure on account of the call option written under the covered call strategy shall not be considered as exposure in terms of paragraph 3 of SEBI Circular no. Cir/IMD/DF/11/2010, dated August 18, 2010.
 - (viii) The call option written shall be marked to market daily and the respective gains or losses factored into the daily NAV of the respective scheme(s) until the position is closed or expired.
- Pending deployment of funds of a Scheme in terms of the investment objectives of the Scheme, the AMC may invest the funds of the Scheme in short term deposits of scheduled commercial banks in accordance with the guidelines set out by SEBI under the Regulations. The Scheme will comply with the following guidelines/restrictions for parking of funds in short term deposits:-
 - a. "Short Term" for parking of funds shall be treated as a period not exceeding 91 days.
 - b. Such short-term deposits shall be held in the name of the Scheme.

- c. The Scheme shall not park more than 15% of the net assets in short term deposit(s) of all the scheduled commercial banks put together. However, such limit may be raised to 20% with the approval of the Trustee.
- d. Parking of funds in short term deposits of associate and sponsor scheduled commercial banks together shall not exceed 20% of total deployment by the Mutual Fund in short term deposits.
- e. The Scheme shall not park more than 10% of the net assets in short term deposit(s), with any one scheduled commercial bank including its subsidiaries.
- f. The Scheme shall not park funds in short-term deposit of a bank which has invested in the said Scheme.
- g. AMC shall not charge any investment management and advisory fees for parking of funds in short term deposits of scheduled commercial banks in case of liquid and debt oriented schemes.

However, the above provisions will not apply to term deposits placed as margins for trading in cash and derivatives market.

- Investment restrictions w.r.t. REITs and InvITs:
 - a) The Mutual Fund under all its schemes shall not own more than 10% of units issued by a single issuer of REIT and InvIT.
 - b) The Scheme shall not invest more than 10% of its NAV in the units of REITs and InvITs.
 - c) The Scheme shall not invest more than 5% of its NAV in the units of REITs and InvITs issued by a single issuer.
- Mutual Funds may enter into plain vanilla interest rate swaps for hedging purposes. The counter party in such transactions has to be an entity recognized as a market maker by RBI. Further, the value of the notional principal in such cases must not exceed the value of respective existing assets being hedged by the Scheme. Exposure to a single counterparty in such transactions should not exceed 10% of the net assets of the Scheme. The investment restrictions applicable to the Schemes' participation in the derivatives market will be as prescribed by SEBI or by the Trustees (subject to SEBI requirements) from time to time. As per SEBI Circular no. Cir/IMD/DF/11/2010 dated August 18, 2010, the aggregate asset allocation including exposure to derivatives will not exceed 100% of the net assets; and that same security wise hedge positions would be excluded from the same.
- Save as otherwise expressly provided under SEBI (Mutual Funds) Regulations, 1996, the Scheme shall not advance any loans.
- The Fund shall not borrow except to meet temporary liquidity needs of the Fund for the purpose of repurchase/redemption of Units or payment of interest and/or dividend to the Unit holders. Provided that the Fund shall not borrow more than 20% of the net assets of the individual Scheme and the duration of the borrowing shall not exceed a period of 6 month.

All investment restrictions shall be applicable at the time of making investment. The AMC/Trustee may alter these above stated restrictions from time to time to the extent the Regulations change, so as to permit the Scheme to make its investments in the full spectrum of permitted investments for mutual funds to achieve its respective investment objective.

Participation of Schemes of PGIM India Mutual Fund in Repos in Corporate debt securities

In accordance with SEBI circular no. CIR / IMD / DF / 19 / 2011 dated November 11, 2011 and CIR/IMD/DF/23/2012 dated November 15, 2012, schemes of the Mutual Fund shall participate in the 'Corporate Bond Repo' transactions as per guidelines issued by Reserve Bank of India (RBI) from time to time. Currently the applicable guidelines are as under:

- a. Gross exposure of the scheme to repo transactions in corporate debt securities shall not be more than 10 % of the net assets of the concerned scheme.
- b. The cumulative gross exposure through repo transactions in corporate debt securities along with equity, debt, units of REITs & INVITs and derivatives shall not exceed 100% of the net assets of the concerned scheme.
- c. Mutual Funds shall participate in repo transactions only in 'AA and above' rated corporate debt securities.
- d. In terms of Regulation 44 (2) mutual funds shall borrow through repo transactions only if the tenor of the transaction does not exceed a period of six months

The investment restrictions applicable to the Scheme's participation in the Corporate Bond repos will also be as prescribed or varied by SEBI or by the Board of PGIM India Trustees Pvt. Ltd. (subject to SEBI requirements) from time to time.

The following guidelines shall be followed by PGIM India Mutual Fund for participating in repo in Corporate debt securities, which have been approved by the Board of AMC and Trustee Company:

a) Category of Counterparty to be considered for making investment:

All entities eligible for transacting in Corporate Bond repos as defined by SEBI and RBI shall be considered for repo transactions.

b) Credit rating of Counterparty to be considered for making investment:

The scheme shall participate in Corporate Bond repo transactions with counterparties having a minimum investment grade rating and approved by the Investment Committee on a case-to-case basis. In case a Counterparty is unrated, the Investment Committee will decide/ assign a rating to the Counterparty and report the same to the Board.

c) Tenor of Repo and Collateral:

As a repo seller (borrowing), the scheme will borrow cash for a period not exceeding 6 months or as per extant regulations. As a repo buyer, the Scheme are allowed to undertake the transactions (lending) for maximum maturity upto one year or such other terms as may be approved by the Investment Committee. There shall be no restriction / limitation on the tenor of the underlying collateral that is being accepted.

d) Applicable haircuts:

As per RBI circular RBI/2012-13/365 IDMD.PCD. 09 /14.03.02/2012-13 dated 07/01/2013, all Corporate Bond repo transaction will be subject to a minimum haircut given as given below:

- a. AAA : 7.50%
- b. AA+ : 8.50%
- c. AA : 10.00%

The haircut will be applicable on the prevailing market value of the said security on the prevailing date of trade. However, the fund manager may ask for a higher haircut (while lending) or give a higher haircut (while borrowing) depending on the prevailing market and liquidity situation.

All plans/options under the Scheme have common portfolio.

1. Growth Option

Under this Option, no dividend will be declared. The income attributable to Units under this option will continue to remain invested in the Scheme and will be reflected in the Net Asset Value of Units under this Option. Hence, the unit holders who opt for this Option will not receive any dividend.

2. Dividend Option

Under Dividend Option, dividends will be declared subject to availability of distributable surplus calculated in accordance with SEBI (MF) Regulations, at the discretion of the Trustee.

	<p>On payment of dividend, the NAV of the units under Dividend option will fall to the extent of the dividend amount and Dividend Distribution Tax u/s. 115R of the Income Tax Act, 1961 and applicable statutory levies, if any. If any of the record date falls on a Non-Business Day, the record date shall be immediately following Business Day.</p> <p>a. Dividend Reinvestment</p> <p>Under DRP, the dividend amount will be compulsorily re-invested in the Dividend Option (at the applicable ex-dividend NAV). There will no pay out of dividend. The amount of dividend re-invested will be net of dividend distribution tax and statutory levy, if any. The additional Units created by way of reinvestment of dividend would be added to the units already held by the Unitholder. The dividends so re-invested shall constitute a constructive payment of dividends to the Unitholders and a constructive receipt of the same amount from each Unitholder for reinvestment in Units of the Dividend Option. There shall be no load on the dividends so re-invested.</p> <p>b. Dividend Payout:</p> <p>Under this facility, dividend declared, if any, will be paid, subject to deduction of dividend distribution tax and statutory levy, if any.</p> <p>Compulsorily reinvestment of Dividend Amount:</p> <p>If the amount of Dividend payable under the Dividend Payout facility is Rs. 50/- or less, then the Dividend would be compulsorily reinvested in the option of the Scheme, even if the Unitholder has opted for Dividend Payout.</p> <p>It must be distinctly understood that the actual declaration of dividend and frequency thereof is at the sole discretion of Board of Directors of the Trustee Company. There is no assurance or guarantee to the Unit holders as to the rate of dividend distribution nor that will the dividend be paid regularly.</p> <p>Default Option/Plan/ Frequency:</p> <p>The investor must clearly specify his/her choice of Option/Plan in the application form, in the absence of which, the Default Option / Plan / frequency would be applicable and the application will be processed accordingly:</p> <p>Default Option: Growth Option</p> <p>Default Sub-option under Dividend option: Reinvestment</p> <p>Default Dividend Frequency: Dividend</p> <p>Any change in Option from Dividend to Growth Option while making additional investment or as per Unitholder's request, will be applicable to all the Units held by the Unitholder in the Dividend Option.</p>

Systematic Transfer Plan (STP):

STP is an investment plan enabling Unitholders to transfer specified amounts from one scheme of the Mutual Fund ('Source scheme') to another ('Target scheme') on a recurrent basis for a specified period at specified frequency as per the table below, by providing a single mandate / standing instruction. On the specified STP transaction dates, Units under the Source scheme will be redeemed at the applicable redemption price, and admissible units will be allotted under the Target scheme as per the investor's STP mandate.

Particulars	Frequency	Details
STP Transaction Dates	Monthly	On the 1st, 7th, 10th, 15th, 21st, 25th or 28th of a month or all seven dates.
	Quarterly	
If any STP transaction due date falls on a non-Business day, then the respective transactions will be processed on the immediately succeeding Business Day for both the schemes.		
Minimum no. of installments and Minimum amount per installment	Monthly	10 (ten) installments of Rs.500 each and in multiples of Rs.1/- thereafter.
	Quarterly	5 (five) installments of Rs. 1,000/- each and in multiples of Rs.1/- thereafter.

Investors may register for STP using a prescribed transaction form. If the STP period or no. of installments is not specified in the transaction Form, the STP transactions will be processed until the balance of units in the unit holder's folio in the Source scheme becomes zero.

The AMC reserves the right to introduce STP facility at any other frequencies or on any other dates as the AMC may feel appropriate from time to time.

The STP mandate may be discontinued by a Unit holder by giving a written notice of 7 days. STP mandate will terminate automatically if all Units held by the unitholder in the Source scheme are redeemed or upon the Mutual Fund receiving a written intimation of death of the sole / 1st Unit holder.

Please refer to the STP Enrolment form for terms and conditions before enrolment. The AMC reserves the right to modify the provisions of the STP as deemed appropriate from time to time.

Introduction of Daily Systematic Transfer Plan (Daily 'STP'):

This facility will enable the unit holders of eligible "Source scheme" to transfer a specified amount on a daily basis i.e. Business Day, from eligible "Source scheme" to eligible "Target Scheme" which is available for investment at that time.

PGIM India Dynamic Advantage Asset Allocation Facility:-

PGIM India Dynamic Advantage Asset Allocation Facility ('the Facility') is a PE (Price to Earnings Ratio) variation based asset allocation facility with rebalancing features. The Facility would help the investors in making investments in equity and debt/liquid schemes of PGIM India Mutual Fund ('the Fund') based on an asset allocation suggested by a proprietary model developed by the AMC and rebalance the same. Following are the features of the Facility:

- (a) The initial investment under the Facility shall be made to a specific scheme of the Fund identified by the AMC ('herein referred as the Feeder Fund'), which is currently, PGIM India Insta Cash Fund;

- (b) Investment under the Facility into the Feeder Fund can be made through any one of these modes, viz. (1) Lump-sum Investment; Or (2) Systematic Investment Plan (SIP);
- (c) Investment shall be allowed only in the Growth option of the schemes including Feeder Fund
- (d) The investor shall identify and designate one equity scheme of the Fund (for equity allocation) and one debt/liquid scheme of the Fund (for debt allocation) in which the investments shall be made under the Facility. Please note that the debt/liquid scheme so chosen by the investor for the purpose of debt allocation cannot be the Feeder Fund.
- (e) The allocation towards the designated equity scheme shall be arrived through calculation of variation from long-term average Nifty 50 PE (see table below) and the balance allocation shall be in the designated debt scheme.

	<p>(j) Investors are requested to note that all switches between (i.e. Switch of units from the Feeder Fund to designated equity and debt schemes and switch between equity and debt schemes) shall be subject to the applicable exit load of the respective schemes. The redemption of units from the folio shall be subject to exit load as applicable to the respective schemes.</p>												
	<p>(k) Investors shall register to avail this Facility by submitting the “Dynamic Advantage Asset Allocation” to the AMC/ISC or applying online. This form also includes the terms and condition applicable to the Facility and the same shall be available on the website of the mutual fund, www.pgimindiamf.com.</p> <p>(l) The Investor(s) agrees and confirms that the AMC may at its sole discretion suspend the Facility in whole or in part at any time without prior notice. The Investor/s agrees that subscription to this Facility will be deemed acceptance of the terms and conditions and the investor(s) will unequivocally be bound by these Terms and Conditions.</p> <p>Pause feature under DAAAF:</p> <p>Pause feature will allow investors to temporarily pause switches triggered under DAAAF for a period of 1 month or 3 months or 6 months as indicated by the unit holder opting for this facility</p> <p>DAAAF Pause feature will allow the investor to pause the DAAAF for either 1 month, 3 months or 6 months. Once the request for DAAAF Pause is received and processed, the existing allocation to debt and equity will be maintained till the end of the pause period. After the end of pause period, the allocations will be done as per the DAAAF model. Post completion of the pause period, the change in allocation if any will be done on the First day of the subsequent month. For e.g. Investor gives a request to pause DAAAF on 17th July for a period of 3 months. The pause period will get over on 17th October. The portfolio rebalancing, if any as suggested by the DAAF model will thereafter happen only on 1st November.</p> <p>Investor can continue with the existing allocation and the pause facility will override any possible triggers given by the model during the period of pause. Once the pause period is over, the facility will resume and the allocations will again be determined by the DAAAF model.</p> <p>Investor can submit a request to AMC or Registrar by writing atleast 7 days in advance of the next rebalancing period.</p> <p>PGIM India Agelinked Investment Asset Allocation Facility:-</p> <p>PGIM India Agelinked Investment Asset Allocation Facility (“the Facility”) is a facility with asset allocation features which allocates assets between equity and debt allocations in such a way that the initial allocation favors equity and allocation becomes increasingly conservative as the investor approaches retirement.</p> <p>The salient features of the Facility are as follows:</p> <p>(a)The investment under the Facility can be made through any one of these modes, (1) Lump-sum Investment; (2) Systematic Investment Plan (SIP).</p> <p>(b)The initial equity investment within the Facility will be calculated using the formula $100 - \text{Age of Investor}$. - (e) PGIM India Large Cap Fund will be the default scheme for equity allocation and PGIM India Short Maturity Fund will be the default scheme for debt allocation. In case the investor has not selected schemes for equity and debt allocation, the allocation shall be made to the default schemes. Also, if the investor has selected one scheme under debt or equity but not selected the other scheme under the 2nd category then the allocation in the 2nd category would be done to the default scheme.
- (f) All investment for the Facility shall be mandatorily under Growth option only.
- (g) Investor will have the option to choose a rebalancing period. The various rebalancing period options available are 1 year, 3 years, 5 years and 7 years. If the investor has not selected the rebalancing period, the default period for rebalancing shall be 5 years. The rebalancing will be carried out on the 1st Monday of the subsequent month to the month in which the rebalancing is due.
- (h) The source date for calculation of rebalancing period would be the 1st transaction date in the folio under the Facility. All additional subscriptions in the folio either in the form of lumpsum or SIP will be rebalanced on the date of completion of selected rebalancing period from the 1st transaction date or last rebalancing period, as applicable.
- (i) The asset allocation shall be applicable to investor(s) from the age of 30 years onwards. If investor has opted for the Facility before the age of 30 years, the investments shall be fully allocated to equity allocation scheme. The first allocation in such case will happen at the age of 30 years and the subsequent allocations will happen at the end of the defined rebalancing period opted by the investor. In case of investor investing at the age of 30 years and above or in case of additional investments/ SIP instalments, investor will get the asset allocation according to his/her age.
- (j) The Facility shall be available only for Individuals who are not minor and will be stopped in case of a transmission. The Facility will not be available for NRI investors.
- (k) The minimum amount under the Facility is Rs 5,000/- for lump-sum investment and Rs. 2000/- for SIP with minimum 12 instalments for Monthly frequency and minimum 6 instalments for Quarterly frequency.
- (l) All the investments under the Facility shall be made under a separate folio. By subscribing to the Facility, the investor(s) authorize(s) the AMC to carry out the switch from designated scheme for equity allocation to designated scheme for debt allocation (on reallocation) without any further instructions or authorization from the investor(s).
- (m) Investors are requested to note that the applicable NAV on Purchase of units (lumpsum / SIP) or switch of units from equity scheme to debt scheme on reallocation shall be subject to the realization /utilization of funds, whenever applicable, as per the prevailing SEBI regulations/circulars, issued and amended from time to time.
- (n) The Investor may at any time completely switch the allocation from one eligible scheme to another eligible scheme within the same category i.e. equity allocation or debt allocation. However, the investor shall not be allowed to switch among the schemes of equity and debt allocation within the folio which is the part of the Facility. Similarly, the investor cannot do a switch from an eligible scheme to any other scheme which is not available under this Facility unless investor wishes to move out of this facility.
- (o) In case of a switch from an eligible equity scheme to another eligible equity scheme or from an eligible debt scheme to another eligible debt scheme, wherein the investment is through the SIP route, all future SIP's will be automatically processed under the new equity or debt scheme only.
- (p) Minimum amount criteria applicable to the scheme shall not be applicable for purchase / switches within the Facility.
- (q) The investor would make an investment towards the Facility and the cheque should be issued in the name of the Facility i.e "PGIM India Agelinked Investment Asset Allocation Facility" and not in the name of scheme.

	<p>(r) The facility can be stopped at any point of time by the investor. If this happens the money invested so far will remain invested in the chosen funds and no further rebalancing will happen. The investor will be in a position to withdraw or switch to any other scheme of the Mutual Fund.</p> <p>(s) All switches between equity and debt schemes on the reallocation date shall be subject to the applicable exit load of the respective schemes from which the switch out is initiated. The redemption of units from the folio shall be subject to exit load as applicable to the respective schemes.</p> <p>(t) Investor shall register to avail the Facility by submitting the “PGIM India Agelinked Investment Asset Allocation Facility” form to the AMC/ISC. This form also includes the terms and conditions applicable to the facility and same shall be available on the website of the mutual fund, www.pgimindiamf.com.</p> <p>The AMC reserves the right to discontinue any of the aforesaid facilities at any point of time.</p>
Accounts Statements	<ul style="list-style-type: none"> ● The unit holders whose valid application for subscription has been accepted by the Fund, a communication specifying the number of units allotted, in the form of an email and/or SMS at the registered email address and/or mobile number, shall be sent within 5 business days from the date of receipt of transaction request or closure of the initial subscription list. ● Thereafter, a Common Account Statement (‘CAS’) shall be issued which shall enable a single consolidated view of all the investments of an investor in mutual funds and securities held in demat form with the Depositories. CAS shall contain details relating to all the transactions carried out by the investors across all schemes of all mutual funds during the month and holding at the end of the month including transaction charges paid to the distributor. ● The following shall be applicable with respect to CAS, for unit holders having a Demat Account:- <ol style="list-style-type: none"> i. Investors having mutual funds investments and holding securities in Demat account shall receive a CAS from the Depository; ii. CAS shall be issued on the basis of PAN. In case of multiple holding, it shall be PAN of the first holder and pattern of holding. The CAS shall be generated on a monthly basis. iii. If there is any transaction in any of the Demat accounts or in any of the mutual fund folios of the investor, depositories shall send the CAS within ten days from the month end. In case there is no transaction in any of the mutual fund folios and demat accounts then CAS with holding details shall be sent to the investor on half yearly basis. iv. Investors will have an option not to receive CAS through the Depository. Investors who do not wish to receive CAS through the Depository can indicate their negative consent to the Depository and such Investors will receive CAS from AMC / the Fund.

	<ul style="list-style-type: none"> ● Unit holders who do not have Demat account shall be issued the CAS for each calendar month on or before 10th of the immediately succeeding month in whose folio(s) transaction(s) has/have taken place during the month by physical form or email (wherever the investors have provided the email address). For the purpose of sending CAS, common investors across mutual funds shall be identified by their PAN. ● As the CAS will be issued on the basis of PAN, the Unit holders who have not provided their PAN will not receive CAS. ● Further, the CAS detailing holding across all schemes of all mutual funds at the end of every six months ended September 30 or March 31, shall be sent in physical form/email on or before tenth day of succeeding month to all such unit holders in whose folios transactions have not taken place during that period. The half-yearly CAS will be sent by email to the Unitholders whose email is available, unless a specific request is made to receive in physical. ● In case of a specific request received from the Unitholders, the AMC will provide the account statement to the Unitholder within 5 Business Days from the receipt of such request. ● If a Unitholder so requests, a non-transferable Unit certificate will be issued within 5 working days of the receipt of such request. <p>Pursuant to SEBI Circular no. Each CAS issued to the investors shall also provide the total purchase value / cost of investment in each scheme.</p> <p>b. Further, CAS issued for the half-year (ended September/ March) shall also provide:</p> <ol style="list-style-type: none"> i. The amount of actual commission paid by AMCs/Mutual Funds (MFs) to the distributor in absolute terms during the half-year period against the concerned investor's total investments in each MF scheme. The commission paid to Distributors is the gross commission and does not exclude costs incurred by distributors such as GST (wherever applicable, as per existing rates), operating expenses, etc. The term _commission refers to all direct monetary payments and other payments made in the form of gifts / rewards, trips, event sponsorships etc. by AMCs/MFs to distributors. ii. The scheme's average Total Expense Ratio (in percentage terms) for the half-year period for each schemes applicable plan (regular or direct or both) where the concerned investor has actually invested in.
<p>Dividend</p>	<p>Under the Dividend Option, dividend will be declared as per the frequency indicated above or as may be decided as per the discretion of the Trustee, subject to availability of distributable surplus calculated in accordance with SEBI (MF) Regulations. It must be clearly understood that there is neither any assurance that the Dividend will be declared regularly nor any assurance as to the rate of Dividend. If the Record Date for dividend distribution falls on a Non-Business Day, the Record Date shall be immediately following Business Day.</p> <p>In accordance with SEBI Circular No. SEBI / IMD / Cir No.1 / 64057 / 06 dated April 4, 2006, the procedure for Dividend declaration / distribution for schemes having frequency of dividend distribution other than daily upto monthly frequency would be as under :</p> <ol style="list-style-type: none"> 1. Quantum of dividend and the record date will be fixed by the Trustee. Dividend so decided shall be paid, subject to availability of distributable surplus. 2. Within one calendar day of decision by the Trustee, the AMC shall issue notice to the public communicating the decision about the dividend including the record date, in one English daily newspaper having nationwide circulation as well as in a newspaper published in the language of the region where the head office of the Mutual Fund is situated.

	<p>3. The Record Date shall be the date, which will be considered for the purpose of determining the eligibility of investors whose names appear on the register of Unit holders for receiving dividends. The Record Date will be 5 calendar days from the date of issue of notice.</p>
	<p>Procedure for Dividend Reinvestment</p> <p>Under the Dividend Reinvestment, the dividend amount will be re-invested (at the applicable ex-dividend NAV) in the Dividend Option of the Scheme or in the Target scheme. The amount of dividend re-invested will be net of dividend distribution tax and statutory levy, if any. The additional Units created by way of reinvestment of dividend would be added to the units already held by the Unitholder. The dividends so re-invested shall constitute a constructive payment of dividends to the Unitholders and a constructive receipt of the same amount from each Unitholder. There shall be no load on the dividends so reinvested.</p> <p>Procedure for Dividend Pay Out:</p> <p>The Dividend proceeds may be paid by way of cheque, Dividend warrant or remitted electronically by way of / Direct credits / ECS / National Electronic Fund Transfer (NEFT) / Real Time Gross Settlement (RTGS) or any other electronic manner, if sufficient bank account details of the unitholder are available with the Mutual Fund to the Unitholder's bank account as recorded in the Registrar's records, within 30 days of the date of declaration of the dividend.</p> <p>In case of specific request for dividend payment through the physical mode or unavailability of sufficient bank details with the Mutual Fund, the Dividend will be paid by dividend warrant / cheque / demand draft and payment will be made in favour of the sole / 1st Unit holder with bank account details furnished to the Mutual Fund.</p> <p>The AMC, at its discretion at a later date, may choose to alter or add other modes of payment.</p> <p>Effect of Dividend:</p> <p>Upon payment of Dividend (including reinvestment of Dividend), the NAV attributable to Units in the respective Dividend Option will stand reduced by the dividend amount, and the dividend distribution tax and statutory levy, if any. The NAV of the Growth Option will remain unaffected by the payment of Dividend.</p> <p>Although the Scheme will have a common portfolio for both Growth and Dividend Options, the NAVs of the two Options will be distinctly different after declaration of the first Dividend to the extent of income distributed, distribution tax and statutory levy thereon.</p> <p>Please refer to Section VII. B. 9 of the SAI for details on Unclaimed Redemptions and Dividends.</p>
<p>Redemption</p>	<p>The redemption proceeds shall be dispatched to the unitholders within 10 business days from the date of receipt of redemption application, complete / in good order in all respects.</p> <p>A Transaction Slip may be used by the Unit Holder to request for Redemption. The requisite details should be entered in the Transaction Slip and submitted at any ISC / OPA. Transaction Slips are available at all the ISCs / OPAs/ the website of the Mutual Fund. For Investors convenience, the Mutual Fund also provides Online Transaction facility on its Website for transacting in units of the Mutual Fund's schemes. It is mandatory for the investors to provide their Bank account details as per SEBI guidelines.</p> <p>Procedure for payment of redemption proceeds</p> <p>1. Resident Investors</p>

	<p>Redemption proceeds will be paid to the investor through RTGS, NEFT, Direct Credit, Cheque or Demand Draft.</p> <p>a) If investor has provided IFSC code in the application form, by default redemption proceeds shall be credited to Investor's bank account through RTGS / NEFT.</p> <p>b) If the Investor has not provided IFSC code but has a bank account with a bank with whom the Fund has an arrangement for Direct Credit, the proceeds will be paid through direct credit.</p> <p>c) If the Investor's bank account does not fall under a) and b) above the Redemption proceeds will be paid by cheque or demand draft, marked "Account Payee only" and drawn in the name of the sole holder / first-named holder (as determined by the records of the Registrar).</p> <p>The bank name and bank account number of the sole / first holder as specified in the Registrar's records will be mentioned in the cheque / demand draft. The cheque / demand draft will be payable at the city, as per the bank mandate of the investor. Please refer SAI for details.</p> <p>The redemption proceeds will be sent by courier or (if the addressee city is not serviced by the courier) by registered post / UCP to the registered address of the sole / first holder as per the records of the Registrars. For the purpose of delivery of the redemption instrument, the dispatch through the courier / Postal Department, as the case may be, shall be treated as delivery to the investor.</p> <p>The AMC / Registrar are not responsible for any delayed delivery or non-delivery or any consequences thereof, if the dispatch has been made correctly as stated above.</p> <p>The AMC reserves the right to change the sequence of payment from (a) to (c) without any prior notice.</p>
	<p>2. Non-Resident Investors</p> <p>For NRIs, Redemption proceeds will be remitted depending upon the source of investment as follows:</p> <p>(i) Repatriation basis: Where Units have been purchased through direct remittance from abroad or by cheque/ draft issued from proceeds of the Unit Holder's FCNR deposit or from funds held in the Unit Holder's Non Resident (External) account maintained in India the proceeds will be remitted to the Unitholder's bankers in India for crediting his/her NRE/FCNR bank account.</p> <p>(ii) Non-Repatriation basis: When Units have been purchased from funds held in the Unit Holder's non-resident (Ordinary) account, the proceeds will be sent to the Unit Holder's Indian address / bankers for crediting to the Unit Holder's non-resident (Ordinary) account.</p> <p>For FIIs, the designated branch of the authorized dealer may allow remittance of net sale / maturity proceeds (after payment of taxes) or credit the amount to the Foreign Currency account or Non-resident Rupee account of the FII maintained in accordance with the approval granted to it by the RBI.</p> <p>The Fund will not be liable for any delays or for any loss on account of any exchange fluctuations, while converting the rupee amount in foreign exchange in the case of transactions with NRIs/ FIIs. The Fund may make other arrangements for effecting payment of Redemption proceeds in future.</p> <p>Effect of Redemptions</p> <p>The number of Units held by the Unit Holder in his/ her/ its folio will stand reduced by the number of Units Redeemed. Units once redeemed will be extinguished and will not be re- issued. The normal processing time may not be applicable in situations where such details are not provided by investors/ Unit holders. The AMC will not be responsible for any loss arising out of fraudulent encashment of cheques and/or any delay/ loss in transit.</p> <p>Where Units under a Scheme are held under both Regular and Direct Plans and the redemption / Switch request pertains to the Direct Plan, the same must clearly be mentioned on the request (along</p>

	with the folio number), failing which the request would be processed from the Regular Plan. However, where Units under the requested Option are held only under one Plan, the request would be processed under such Plan.
Delay in payment of redemption / repurchase proceeds	<p>The redemption or repurchase proceeds shall be dispatched to the unitholders within 10 Business days from the date of redemption or repurchase. The AMC shall be liable to pay interest to the Unit holders @ 15% p.a. or such other rate as may be prescribed by SEBI from time to time, in case the Redemption / Repurchase payment is not made within 10 Business days from the date of receipt of the valid Redemption / Repurchase application, complete in all respect.</p> <p>Note: The AMC will not be liable to pay any interest or compensation in case of any delay in processing the redemption application beyond 10 Business Days in case of any deficiency in the redemption application or if the AMC / RTA is required to obtain from the Investor / Unit holders any additional details for verification of identity or bank details etc. under applicable regulations.</p>
Bank Mandate	<p>It is mandatory for the every sole / first applicant / Unitholder to provide the name of the bank, branch, address, account number and account type as per requirements SEBI guidelines and any other requirements stated in the Application Form. Further, in case the cheque for purchase of units is issued from a bank account which is different from the Bank Mandate mentioned in the application form or if the payment is made through a bank draft, the investor needs to provide a cancelled cheque leaf, for the purpose of verification along with the application form. Without these details, the application will be treated as incomplete and is liable to be rejected by the Registrar/AMC.</p> <p>Multiple Bank Mandate Registration for non-demat holders.</p> <p>Investors (holding units in physical account statement) may register multiple Bank Mandates in a single folio using a prescribed Multiple Bank Mandate Registration form which is available at all ISCs/OPAs and also on the Mutual Fund's website. The said form needs to be accompanied with cancelled cheque leaves for all the bank mandates which the investor seeks to register under a folio. For details, please refer to SAI.</p> <p>Note: For Units held in demat mode, the bank mandate shall be as per bank details registered with the DP.</p>
Transaction Charges	Please refer to highlights of the scheme for details.
Option to hold units in dematerialized (Demat) form	<p>The investors shall have an option to hold the Units in demat mode, except for units held under Dividend Options where dividend distribution frequency is less than one month. However, for SIP transactions, while the units in will be allotted based on the applicable NAV as per the respective SIDs, the same will be credited to unitholder's Demat account on a weekly basis, upon realization of funds/ credit confirmation. For example, for fund realization/ credit confirmation received from the bankers from Monday to Friday of a week, the Units will be credited to unitholder's Demat account with the DP in the following week on Monday.</p> <p>To hold the Units in demat mode, the investor will be required to have a beneficiary account with a Depository Participant (DP) of the NSDL/CDSL and will be required to mention in the application form, DP's Name, DP ID and Beneficiary Account No. with the DP at the time of subscribing to the Units. If a Unit holder desires to opt for dematerialization of units held under physical account statement at a later date, he will be required to make an application to AMC/ RTA/DP in Conversion Request Form (available on the website of the Mutual Fund or with the DPs) along with Statement of Account, a copy of Client Master Report (CMR) or Transaction Statement (only the page of Transaction Statement</p>

	<p>reflecting the name and pattern of holding) issued by its Depository Participant. Application for issue of Units in demat mode may be submitted to any of the OPAs / ISCs or DPs. The AMC will endeavor to credit the Units to the Beneficiary Account of Unit holder within two working days from the date of clearance of the investor's cheque or receipt of demat request .</p> <p>In case the unit holders do not provide their Demat Account details, or the demat details provided in the application form are incomplete / incorrect or do not match with the details with the Depository records, the Units will be allotted in physical account statement mode provided the application is otherwise complete in all respect and accordingly, an Account Statement shall be sent to them.</p>
Rematerialisation of units held in Demat form:	<p>Units of the Scheme held in demat may be converted into physical account statement mode via rematerialisation process. Rematerialization of Units ('remat') will be in accordance with the provisions of SEBI (Depositories & Participants) Regulations, 1996. The investor will need to submit a remat request to his/her DP for rematerialisation of holdings in his/her account. If there is sufficient balance in the investor's account, the DP will generate a Rematerialisation Request Number (RRN) and the same is entered in the space provided for the purpose in the rematerialisation request form. The DP will then despatch the request form to the AMC/ RTA. The AMC/ RTA accepts the request for rematerialisation prints and despatch the account statement to the investor and send electronic confirmation to the DP. DP shall inform the investor about the changes in the investor account following the acceptance of the remat request.</p>
Listing & Transfer	<p>Being open-ended Scheme under which the Subscription and Redemption of Units will be made on a continuous basis, the Units of the Scheme are not proposed to be listed on any stock exchange. However, the AMC in consultation with the Trustee may list the Units on one or more Stock Exchanges at a later date. In such an event, the AMC will make suitable public announcement to that effect.</p> <p>Pursuant to SEBI circular CIR/IMD/DF/10/2010 dated August 18, 2010, the units of the Scheme held in dematerialised form would be freely transferable from one demat account to another. The provisions with respect to transmission of such dematerialized units will be governed by SEBI [Depository Participants] Regulations, 1996.</p> <p>If a person becomes a holder of the Units consequent to operation of law, or upon enforcement of a pledge, the Mutual Fund will, subject to production of satisfactory evidence, effect the transfer, if the transferee is otherwise eligible to hold the Units. Similarly, in cases of transmission of Units consequent on the death of a unitholder, the transferee's name will be recorded by the AMC / Registrar subject to production of satisfactory evidence and completing the requisite procedure / documentation (as explained in SAI).</p>
The policy regarding reissue of repurchased units (including the maximum extent, the manner of reissue, the entity (the scheme or the AMC) involved in the same.	<p>The Scheme does not propose to reissue Redeemed Units.</p>
Restrictions, if any, on the right to freely retain or dispose of units being offered.	<p>Units of the Scheme held in physical Account Statement are non-transferable. Units of the Scheme are presently not proposed to be listed on any stock exchange. Only the Units of the held in dematerialized form are transferable through off-market deals, in accordance with the provisions of SEBI (Depositories and Participants) Regulations, as may be amended from time to time, as mentioned above under section "Listing & Transfer".</p> <p>Pledge of Units:</p> <p>a. Units held in demat mode:</p> <p>The Units held in demat mode can be pledged as per the provisions of Depositories Act and Rules and Regulations framed by Depositories.</p>

	<p>b. Units held in physical mode:</p> <p>The Units held in physical mode under the Scheme may be offered as security by way of a pledge / charge in favour of scheduled banks, financial institutions, non-banking finance companies (NBFCs), or any other body as decided by the AMC.</p> <p>The AMC / Registrar will note and record such Pledge of Units. The AMC shall mark a lien only upon receiving the duly completed form and documents as may be prescribed. Disbursement of such loans will be entirely at the discretion of the bank / financial institution / NBFC concerned (hereinafter referred to as the "Pledgee") and the Mutual Fund/AMC assumes no responsibility thereof. The Pledgor will not be able to redeem Units that are pledged, until the Pledgee to whom the Units are pledged provides written authorisation to the Mutual Fund that the pledge / lien charge may be revoked. Further, the Pledgee will have complete authority to redeem such Units so long as the Units remain under pledge.</p> <p>Right to limit Redemption:</p> <p>The AMC may, under the below mentioned circumstances, impose restriction on redemption (including switch-outs) for a period not exceeding 10 working days in any 90 days period. Such restriction may be imposed when there are circumstances leading to a systemic crisis or event that severely constricts market liquidity or the efficient functioning of markets such as:</p> <ul style="list-style-type: none"> — Liquidity issues - When market at large becomes illiquid affecting almost all securities rather than any issuer specific security; — Market failures, exchange closures - When markets are affected by unexpected events which impact the functioning of exchanges or the regular course of transactions. Such unexpected events could also be related to political, economic, military, monetary or other emergencies; — Operational issues - When exceptional circumstances are caused by force majeure, unpredictable operational problems and technical failures (e.g. a black out). <p>However, such restriction would not be applicable to the redemption (including switch-outs) requests received for upto INR 2 Lakhs. In case of redemption (including switch-outs) requests above INR 2 Lakhs, the AMC shall redeem the first INR 2 Lakhs without such restriction and remaining part over and above INR 2 Lakhs shall be subject to such restriction.</p> <p>Any imposition of restriction on redemption (including switch-outs) of units of the Scheme shall be made applicable only after specific approval of Board of AMC and Trustee and the same shall also be informed to SEBI immediately.</p>
	<p>KYC Policy:</p> <p>It is mandatory for all investors (including joint holders, NRIs, POA holders and guardians in the case of minors) to comply with the Know Your Customers (KYC) requirements under the AML Laws. Applications from investors who have not complied with such KYC requirement will be rejected. For more details on KYC requirements, please refer SAI.</p> <p>It is mandatory for all investors (including guardians, joint holders, NRIs and power of attorney holders) to provide their Income Tax Permanent Account Number (PAN) and also submit a photo copy of the PAN card issued to them by the Income Tax Department at the time of purchase of Units in the Scheme. For more details on the PAN requirements and exceptions available from such requirements, please refer SAI.</p> <p>Implementation of the Prevention of Money-laundering (Maintenance of Records) Second Amendment Rules, 2017 with respect to seeding of Aadhaar number:</p>

	<p>Investors are requested to note the following requirements in relation to submission of Aadhaar number and other prescribed details to the Fund/its Registrar and Transfer Agent/ PGIM India Asset Management Pvt. Ltd. ("the AMC"):</p> <ul style="list-style-type: none"> Where the investor is an individual, who is eligible to be enrolled for Aadhaar number, the investor is required to submit the Aadhaar number issued by UIDAI. Where the Aadhaar number has not been assigned to an investor, the investor is required to submit proof of application of enrolment for Aadhaar. If such an individual investor is not eligible to be enrolled for Aadhaar number, and in case the Permanent Account Number (PAN) is not submitted, the investor shall submit one certified copy of an officially valid document containing details of his identity and address and one recent photograph along with such other details as may be required by the Mutual Fund. <p>The investor is required to submit PAN as defined in the Income Tax Rules, 1962.</p> <ul style="list-style-type: none"> Where the investor is a non-individual, apart from the constitution documents, Aadhaar numbers and PANs as defined in Income-tax Rules, 1962 of managers, officers or employees or persons holding an attorney to transact on the investor's behalf is required to be submitted. Where an Aadhaar number has not been assigned, proof of application towards enrolment for Aadhaar is required to be submitted and in case PAN is not submitted an officially valid document is required to be submitted. If a person holding an authority to transact on behalf of such an entity is not eligible to be enrolled for Aadhaar and does not submit the PAN, certified copy of an officially valid document containing details of identity, address, photograph and such other documents as prescribed is required to be submitted. <p>All investments in PGIM India Mutual Fund need to comply with the PAN and KYC requirements as stated above, failing which the applications are liable to be rejected. It is clarified that all categories of investors seeking exemption from PAN still need to complete the KYC requirements stipulated from time to time, irrespective the amount of investment.</p>

Long-Term Capital Gains			
10% (plus applicable surcharge and cess) where STT is paid	Nil	10% (plus applicable surcharge and cess)	Nil

¹ Units of an equity oriented mutual fund shall be considered as a short-term capital asset where the same are held for a period of 12 months or less immediately preceding their date of transfer. Long-term capital asset means an asset which is not a short-term capital asset.

² Under the provisions of new section 112A of the Act, in respect of transfer of a unit of an equity oriented fund on or after 1 April 2018, tax at the rate of 10 per cent (plus applicable surcharge and cess) shall be levied on long-term capital gains, exceeding Rs 100,000, where STT has been paid on transfer of such unit of an equity oriented fund.

Such long-term capital gains are required to be computed without giving effect to the first and second provisos to section 48 of the Act, i.e. benefit of computation of capital gains in foreign currency and indexation in respect of cost of acquisition and improvement.

Further, for the purpose of computing capital gains in relation to a long-term capital asset, being a unit of an equity oriented fund, acquired before 1 February 2018, the cost of acquisition is deemed to be the higher of:

- The cost of acquisition of such unit; and
- The lower of –
 - (a) the fair market value of the unit; and
 - (b) the full value of consideration received or accruing as a result of the transfer of the unit.

Fair market value has been defined to mean –

a) in a case where the unit is listed on any recognized stock exchange, the highest price of the unit quoted on such exchange on 31 January 2018. However, where there is no trading in such unit on such exchange on 31 January 2018, the highest price of such unit on such exchange on a date immediately preceding the 31 January 2018 when such unit was traded on such exchange shall be the fair market value.

b) in a case where the capital asset is a unit and is not listed on recognized stock exchange, the net asset value of such asset as on 31 January 2018.

³ Schemes of an equity oriented mutual fund (Refer Note below) will also attract securities transaction tax (STT) at applicable rates. For further details on taxation please refer to the clause on Taxation in the Statement of Additional Information (SAI).

⁴ The tax rate would be increased by a surcharge of:

- a) 10 per cent - in case of Individuals/ HUFs/ AOP/ BOI, where the total income exceeds Rs 5,000,000 but does not exceed Rs 10,000,000.
- b) 15 per cent - in case of Individuals/ HUFs/ AOP/ BOI, where the total income exceeds Rs 10,000,000 but does not exceed Rs 20,000,000.
- c) 25 per cent - in case of Individuals/ HUFs/ AOP/ BOI, where the total income exceeds Rs 20,000,000 but does not exceed Rs 50,000,000.
- d) 37 per cent - in case of Individuals/ HUFs/ AOP/ BOI, where the total income exceeds Rs 50,000,000.
- e) 12 per cent - in case of Firms/ local authority/ co-operative societies where the total income exceeds Rs 10,000,000.
- f) 7 per cent - in case of domestic corporate Unit holders, where the total income exceeds Rs 10,000,000 but does not exceed Rs 100,000,000.

- g) 12 per cent - in case of domestic corporate Unit holders, where the total income exceeds Rs 100,000,000.
- h) 2 per cent - in case of foreign corporate Unit holders, where the total income exceeds Rs 10,000,000 but does not exceed Rs 100,000,000.
- i) 5 per cent - in case of foreign corporate Unit holders, where the total income exceeds Rs 100,000,000.

Further, a health and education cess of 4 per cent would be charged on amount of tax inclusive of surcharge for all Unit Holders.

Tax rebate up to Rs 12,500 per annum would be available for resident individuals having total income up to Rs 500,000.

In case of resident individuals and HUFs, where the total income as reduced by the capital gains, is below the maximum amount which is not chargeable to income-tax, then, such capital gains will be reduced to the extent of the shortfall and only the balance capital gains will be subjected to tax.

Assuming that the total income in case of individuals, HUF/ AOP/ BOI exceeds the basic exemption limit [Rs 500,000 in case of resident individual of an age of 80 years or more, Rs 300,000 in case of resident individual of an age of 60 years or more but less than 80 years and Rs 250,000 in case of resident in India below 60 years of age (including HUF, AOP/ BOI)].

⁵ Income distribution, if any, made by a Mutual Fund, will attract distribution tax under section 115R of the Act at the rates listed below:

Sr No	Type of Mutual Fund	Income distributed to	Rate of distribution tax
(i)	Equity oriented fund	Any person	10 per cent

The aforesaid rate would be increased by a surcharge of 12 per cent and a health and education cess at the rate of 4 per cent on the amount of distribution tax inclusive of surcharge.

Distribution tax is required to be paid by the mutual fund after grossing up income distributed to investor by the applicable rate of distribution tax.

However, no distribution tax would be levied in respect of income distributed, on or after 1 September 2019 by a Mutual Fund located in International Financial Services Centre of which all the unit holders are non-residents and derives income in convertible foreign currency.

⁶ Rates for NRIs are as per normal provisions of the Act and not as per section 115E of the Act.

Note: An equity oriented fund has been defined as:

- (a) In case where the fund invests a minimum of 90% of the total proceeds in units of another fund, which is traded on recognized stock exchange, and such other fund also invests a minimum of 90% of its total proceeds in the equity shares of domestic companies listed on a recognized stock exchange; and
- (b) In any other case, a minimum of 65 per cent of the total proceeds of such fund is invested in the equity shares of domestic companies listed on a recognized stock exchange.

The percentage of equity shareholding of the fund shall be computed with reference to the annual average of the monthly averages of the opening and closing figures.

For further details on taxation please refer to the clause on Taxation in the SAI.

The above is intended as a general guide only and does not necessarily describe the tax consequences for all types of investors in the Fund and no reliance, therefore, should be placed upon them. Each investor is advised to consult his or her own tax consultant with respect to the specific tax implications.

D. COMPUTATION OF NAV

NAV of Units under the Scheme may be calculated by either of the following methods shown below:

NAV (Rs.) =	Market or Fair Value of Scheme's investments + Current Assets - Current Liabilities and Provisions
	No. of Units outstanding under the Scheme

Or

NAV (Rs.) =	Unit Capital + Reserves and Surplus
	No. of Units outstanding under the Scheme

Note:

- The NAV is rounded off to 2 decimal places.
- Separate NAV will be calculated and disclosed for each Plan/Option.
- The AMC will calculate and disclose the NAV of the Scheme on all the Business Days.
- The valuation of the Scheme's assets and computation of the Scheme's NAV shall be subject to audit on an annual basis and such regulations as may be prescribed by SEBI from time to time.

Foreign Exchange conversion

On the valuation day, all assets and liabilities in foreign currency will be valued in Indian Rupees at the RBI reference rate as at the close of banking hours on that day in India. The Trustees reserve the right to change the source for determining the exchange rate at a future date after recording the reason for such change.

E. TRANSACTION CHARGES:

In accordance with SEBI Circular No. IMD/ DF/13/ 2011 dated August 22, 2011 read with circular no. CIR/ IMD/ DF/ 21/ 2012 dated September 13, 2012, the AMC/ Fund shall deduct a Transaction Charge on per purchase / subscription of Rs. 10,000/- and above, as may be received from new investors (an investor who invests for the first time in any mutual fund schemes) and existing investors. Such deduction shall be as under (provided the distributor has opted in to receive the transaction charges):-

- For the new investor a transaction charge of Rs 150/- shall be levied for per purchase / subscription of Rs 10,000/- and above; and
- For the existing investor a transaction charge of Rs 100/- shall be levied for per purchase / subscription of Rs 10,000/- and above.

The transaction charge shall be deducted from the subscription amount and paid to the distributor and the balance amount (net of transaction charges) shall be invested. The transaction charges and the net investment amount and the number of units allotted will be clearly mentioned in the Account Statement issued by the Mutual Fund. Distributors may choose to either option to opt-in or opt out of charging the transaction charge.

In case of investments through Systematic Investment Plan (SIP) the transaction charges shall be deducted only if the total commitment through SIP (i.e. amount per SIP installment x No. of installments) amounts to Rs. 10,000/- and above. In such cases, the transaction charges shall be deducted in 3-4 installments.

However, the Transaction charges shall not be deducted if:

- The amount per purchases /subscriptions is less than Rs. 10,000/-;
- The transaction pertains to other than purchases/ subscriptions relating to new inflows such as Switch/STP, etc.
- Purchases/Subscriptions made directly with the Fund through any mode (i.e. not through any distributor/agent).
- The Distributor has opted out for levy of transaction charges.

Upfront commission to distributors shall continue to be paid by the investor directly to the distributor by a separate cheque based on his assessment of various factors including the service rendered by the distributor.

F. CREATION OF SEGREGATED PORTFOLIO

The AMC may create a segregated portfolio of debt and money market instruments in The Scheme in case of a credit event and to deal with liquidity risk.

In this regard, the term 'segregated portfolio' shall mean a portfolio comprising of debt or money market instrument affected by a credit event, that has been segregated in a mutual fund scheme and the term 'main portfolio' shall mean the scheme portfolio excluding the segregated portfolio. The term 'total portfolio' shall mean the scheme portfolio including the securities affected by the credit event.

A segregated portfolio may be created in the scheme in case of a credit event at issuer level i.e. downgrade in credit rating by a SEBI registered Credit Rating Agency (CRA), as under:

- a. Downgrade of a debt or money market instrument to 'below investment grade', or
- b. Subsequent downgrades of the said instruments from 'below investment grade', or
- c. Similar such downgrades of a loan rating.

In case of difference in rating by multiple CRAs, the most conservative rating shall be considered. Creation of segregated portfolio shall be based on issuer level credit events as detailed above and implemented at the ISIN level

A process for creation of segregation of portfolios is as follow;

1. The AMC shall decide on creation of segregated portfolio on the day of credit event, as per the process laid down below:
 - i. The AMC shall seek approval of Trustees, prior to creation of the segregated portfolio.
 - ii. The AMC shall immediately issue a press release disclosing its intention to segregate such debt and money market instrument and its impact on the investors. It shall also be disclosed that the segregation shall be subject to trustee approval. Additionally, the said press release shall be prominently disclosed on the website of the AMC.
 - iii. The AMC shall ensure that till the time the Trustee approval is received, the subscription and redemption in the scheme shall be suspended for processing with respect to creation of units and payment on redemptions.
2. Upon receipt of approval from Trustees:
 - i. The segregated portfolio shall be effective from the day of credit event.
 - ii. The AMC shall issue a press release immediately with all relevant information pertaining to the segregated portfolio. The said information shall also be submitted to SEBI.
 - iii. An e-mail or SMS should be sent to all unit holders of the concerned scheme.
 - iv. The NAV of both segregated and main portfolio shall be disclosed from the day of the credit event.
 - v. All existing investors in the scheme as on the day of the credit event shall be allotted equal number of units in the segregated portfolio as held in the main portfolio.
 - vi. No redemption and subscription shall be allowed in the segregated portfolio. However, in order to facilitate exit to unit holders in segregated portfolio, AMC shall enable listing of units of segregated portfolio on the recognized stock exchange within 10 working days of creation of segregated portfolio and also enable transfer of such units on receipt of transfer requests.
3. If the trustees do not approve the proposal to segregate portfolio, the AMC shall issue a press release immediately informing investors of the same.
4. Notwithstanding the decision to segregate the debt and money market instrument, the valuation shall take into account the credit event and the portfolio shall be valued based on the principles of fair valuation (i.e. realizable value of the assets) in terms of the relevant provisions of SEBI (Mutual Funds) Regulations, 1996 and Circular(s) issued thereunder.
5. All subscription and redemption requests for which NAV of the day of credit event or subsequent day is applicable will be processed as per the existing circular on applicability of NAV as under:
 - a. Upon trustees' approval to create a segregated portfolio:
 - i. Investors redeeming their units will get redemption proceeds based on the NAV of main portfolio and will continue to hold the units of segregated portfolio.
 - ii. Investors subscribing to the scheme will be allotted units only in the main portfolio based on its NAV.
 - b. In case trustees do not approve the proposal of segregated portfolio, subscription and redemption applications will be processed based on the NAV of total portfolio.
6. In order to enable the existing as well as the prospective investors to take informed decision, the following shall be adhered to:
 - a. A statement of holding indicating the units held by the investors in the segregated portfolio along with the NAV of both segregated portfolio and main portfolio as on the day of the credit event shall be communicated to the investors within 5 working days of creation of the segregated portfolio.
 - b. Adequate disclosure of the segregated portfolio shall appear in all scheme related documents, in monthly and half-yearly portfolio disclosures and in the annual report of the mutual fund and the scheme.
 - c. The Net Asset Value (NAV) of the segregated portfolio shall be declared on daily basis.
 - d. The information regarding number of segregated portfolios created in a scheme shall appear prominently under the name of the scheme at all relevant places such as SID, KIM-cum-Application Form, advertisement, AMC and AMFI websites, etc.
 - e. The scheme performance required to be disclosed at various places shall include the impact of creation of segregated portfolio. The scheme performance should clearly reflect the fall in NAV to the extent of the portfolio segregated due to the credit event and the said fall in NAV along with recovery(ies), if any, shall be disclosed as a footnote to the scheme performance.
 - f. The disclosures at paragraph (d) and (e) above regarding the segregated portfolio shall be carried out for a period of at least 3 years after the investments in segregated portfolio are fully recovered/written-off.
 - g. The investors of the segregated portfolio shall be duly informed of the recovery proceedings of the investments of the segregated portfolio. Status update may be provided to the investors at the time of recovery and also at the time of writing-off of the segregated securities.
7. In order to ensure timely recovery of investments of the segregated portfolio, the Trustees to the fund would continuously monitor the progress and take suitable action as may be required.
8. TER for the Segregated Portfolio:

- a. AMC shall not charge investment and advisory fees on the segregated portfolio. However, TER (excluding the investment and advisory fees) can be charged, on a pro-rata basis only upon recovery of the investments in segregated portfolio.
- b. The TER so levied shall not exceed the simple average of such expenses (excluding the investment and advisory fees) charged on daily basis on the main portfolio (in % terms) during the period for which these segregated portfolio was in existence.
- c. The legal charges related to recovery of the investments of the segregated portfolio may be charged to the segregated portfolio in proportion to the amount of recovery. However, the same shall be within the maximum TER limit as applicable to the main portfolio. The legal charges in excess of the TER limits, if any, shall be borne by the AMC.
- d. The costs related to segregated portfolio shall in no case be charged to the main portfolio.

Please note that the process followed by the AMC/Trust regarding creation of segregated portfolios shall be in accordance with the provisions laid down by SEBI from time to time.

IV. Fees and Expenses

This section outlines the expenses that will be charged to the scheme.

A. NEW FUND OFFER (NFO) EXPENSES

These expenses are incurred for the purpose of various activities related to the NFO like sales and distribution fees marketing and advertising, Registrar expenses, printing and stationary, bank charges etc.

B. ANNUAL SCHEME RECURRING EXPENSES

These are the fees and expenses for operating the Scheme. These expenses include the Investment Management and Advisory Fee charged by the AMC, Registrar and Transfer Agents' Fee, marketing and selling costs etc. as given below:

- a. The total expense ratio of the Scheme, excluding issue or redemption expenses, whether initially borne by the mutual fund or by the AMC, but including the investment management and advisory fee shall be as follows:

Assets under management Slab (In Rs. crore)	Total expense ratio limits (p.a.)
on the first Rs.500 crores of the daily net assets	2.25%
on the next Rs.250 crores of the daily net assets	2.00%
on the next Rs.1,250 crores of the daily net assets	1.75%
on the next Rs.3,000 crores of the daily net assets	1.60%
on the next Rs.5,000 crores of the daily net assets	1.50%
On the next Rs.40,000 crores of the daily net assets	Total expense ratio reduction of 0.05% for every increase of Rs.5,000 crores of daily net assets or part thereof

- b. In addition to the annual recurring expenses stated in (a) above, the following costs or expenses may be charged to the Scheme:-
- Brokerage and transaction costs which are incurred for the purpose of execution of trade and is included in the cost of investment, not exceeding 0.12 per cent in case of cash market transactions and 0.05 per cent in case of derivatives transactions. The brokerage and transaction cost incurred for the purpose of execution of trade may be capitalized to the extent of 0.12 per cent and 0.05 per cent for cash market transactions and derivatives transactions respectively. Any payment towards brokerage and transaction cost, over and above the said 0.12 per cent and 0.05 per cent for cash market transactions and derivatives transactions respectively may be charged to the scheme within the maximum limit of annual recurring expenses as prescribed under (a) above.
 - Expenses not exceeding of 0.30 per cent of daily net assets, if the new inflows from retail investor from beyond top 30 cities (as per SEBI Regulations /Circulars/ AMFI data) are at least (i) 30 per cent of gross new inflows in the scheme, or (ii) 15 per cent of the average assets under management (year to date) of the scheme, whichever is higher.
 Provided that if inflows from such cities is less than the higher of sub-clause (i) or sub-clause (ii), such expenses on daily net assets of the scheme shall be charged on proportionate basis.
 The expenses charged under this clause shall be utilised for distribution expenses incurred for bringing inflows from such cities. Provided further that amount incurred as expense on account of inflows from such cities shall be credited back to the scheme in case the said inflows are redeemed within a period of one year from the date of investment.
 - Additional expenses not exceeding 0.05 per cent of daily net assets of the scheme, towards the investment and advisory fees or various other permissible expenses. It may be noted that these expenses will not be charged in case the scheme does not charge an exit load.
 - Goods and Services tax on investment and advisory fees.

Within such total recurring expenses charged to the Scheme as above, the investment management and advisory fee (charged as a percentage of daily net assets) would be as decided by the AMC from time to time, provided that the investment management and advisory fee shall not exceed the aggregate of expenses charged under clause (a) and (b) (iii) above.

Goods and Service tax on other than investment and advisory fees, if any, and the Goods and Services tax on brokerage and transaction cost paid for execution of trade shall be borne by the scheme within the maximum limit of annual recurring expenses stated in (a) above. Further, the Goods and Services tax on exit load, if any, shall be paid out of the exit load proceeds and the exit load net of Goods and Services tax, if any, shall be credited back to the scheme.

In terms of SEBI circular no. CIR/IMD/DF/21/2012 dated September 13, 2012, the AMC shall annually set apart at least 0.02% on daily net assets within the maximum limit of recurring expenses as per Regulation 52 for investor education and awareness initiatives.

The maximum annual recurring expenses of the Scheme including the investment management and advisory fee (together with additional management fee wherever applicable) shall not exceed the limit stated in Regulation 52 read with aforesaid SEBI circular dated September 13, 2012, as explained above. Any excess over these specified ceilings would be borne by the AMC or the Trustee or the Sponsor.

The Direct Plan under the Scheme shall have a lower expense ratio as compared to the Regular Plan, excluding the distribution expenses, commission, etc. related to distributors. The Direct Plan shall also have separate NAV.

The AMC has estimated the following total expenses for the first Rs. 500 Crores of the daily net assets of the Scheme. For the actual current expenses being charged, the investor may refer to the website of the Mutual Fund (www.pgimindiamf.com). Further, the disclosure of Total Expense Ratio (TER) on a daily basis shall also be made on the website of AMFI (www.amfiindia.com). The Mutual Fund would update the current expense ratios on the website at least three working days prior to the effective date of the change. Additionally, the AMC shall provide the exact weblink of the heads under which TER is disclosed on the website

The purpose of the above table is to assist the investor in understanding the various costs & expenses that an investor in the Scheme will bear directly or indirectly. The above estimates have been made in good faith as per the information available to the AMC, and are subject to change inter-se, or in total, on account of any change in SEBI Regulations or otherwise. The actual expenses incurred may be higher or lower than the estimated rates

mentioned above. The AMC will strive to reduce the level of these expenses so as to keep them well within the maximum limit allowed by SEBI, and expenses in excess of the above limit shall be borne by AMC. All types of expenses charged to the Scheme shall be in accordance with the SEBI (MF) Regulations.

The entire exit load (net of Goods and Services Tax), charged, if any, shall be credited to the Scheme.

Illustration of impact of expense ratio on scheme's returns

If the investor has invested Rs. 10,000 on April 30, 2018 under Regular Plan of the Scheme and value of his investment is Rs. 11,000 on April 30, 2019, his return on investment is 10% p.a. which is net of expense ratio @ 2.25% p.a. His return on investment before charging expense @ 2.25% p.a. would be Rs. 11225 i.e. 12.25% p.a.

The present illustration is calculated pursuant to the requirements of SEBI Circular No. SEBI/HO/IMD/DF2/CIR/P/2016/42 dated March 18, 2016. The purpose of an illustration is to purely explain the impact of expense ratio charged to the Scheme and should not be construed as providing any kind of investment advice or guarantee of returns on investments. Actual returns on your investment may be more, or less. The expenses of the Direct Plan under the Scheme will be lower to the extent of distribution expenses/commission. The NAVs published by the AMC are net of scheme expenses and they reflect return on investment to investors, provided investment is not subject to exit load. Any tax impact has not been considered in the above example, in view of the individual nature of the tax implications. Each investor is advised to consult his or her own financial advisor.

C. LOAD STRUCTURE

Load is an amount which is paid by the investor to subscribe to the units or to redeem the units from the scheme. This amount is used by the AMC to pay commissions to the distributor and to take care of other marketing and selling expenses. Load amounts are variable and are subject to change from time to time.

The load structures of the Scheme is as follows:

Type of Load	Load chargeable (as % of NAV)
Entry Load	Nil
Exit Load	<ul style="list-style-type: none"> •10% of the units allotted may be redeemed without any exit load on or before 12 months from the date of allotment; •Any redemptions/switch outs in excess of the above mentioned limit would be subject to an exit load of 1%, if the units are redeemed/switched out on or before completion of 12 months from the date of allotment of units; •Nil - If the units are redeemed/switched out after completion of 12 months from the date of allotment of units.

Redemption of Units will be considered on First-in-First-Out (FIFO) basis.

Following is the illustration as how load will be charged for redemption of units:

Initial purchase on August 19, 2018 - 10,000 units.

Additional purchase on December 15, 2018 - 50,000 units.

The scheme has exit load if redeemed before 12 months.

Load applicability under various scenarios.

Redemption on or before August 18, 2019 of following number of units:

a. Upto 1,000 units (as this is upto 10% of units from initial purchase) - Nil exit load.

b. From 1,001 to 10,000 units - Applicable load will be charged on 9,000 units.

c. From 10,001 to 60,000 units - Nil exit load for upto 5,000 units (as this is upto 10% of units from additional purchase of 50,000 units) + Applicable load charged on redemption of upto 45,000 units from additional purchase.

Redemption on or before August 18, 2019 of following number of units:

Assuming that 1,500 units were redeemed in first year.

- a. Upto 1,000 units (as this is upto 10% of units from initial purchase) - Nil exit load.
- b. From 1,001 to 1,500 units - Applicable load will be charged on 500 units.

No exit load will be charged for switches and STP between schemes of PGIM India Mutual Fund. However, exit load will continue to apply for redemptions.

^SEBI, vide circular no. SEBI / IMD / CIR No. 4 / 168230 / 09 dated June 30, 2009 has decided that there shall be no Entry Load for all Mutual Fund Schemes. Accordingly, the upfront commission payable to the distributor on investment made by the investor, if any, shall be paid directly by the investor to the distributor, based on the investor's assessment of various factors including service rendered by the distributor.

The entire exit load (net of Goods and Services tax), charged, if any, shall be credited to the Scheme.

Exit Load for switches within the Scheme:-

- a) Where the investments were routed through a distributor (i.e. made with distributor code), any Switch of Units from the Regular Plan to Direct Plan of a Scheme shall be subject to applicable exit load, if any. However, any subsequent switch - out or redemption of such investments from the Direct Plan will not be subject to any exit load;
- b) Where investments were made directly i.e. without any distributor code, exit load will not be levied on switch of Units from Regular Plan to Direct Plan of that Scheme. However, any subsequent switch-out or redemption will be subject to exit load applicable from the original date of investment;
- c) No exit load shall be levied in case of switch of Units from Direct Plan to Regular Plan of a Scheme. However, any subsequent switch-out or redemption of such investment from the Regular Plan shall be subject to exit load based on the original date of investment in the Direct Plan.

No exit load will be charged for switches and STP from any scheme to the equity schemes of DPMF (except PGIM India Arbitrage Fund). Further exit load as per prevailing structure will be charged for switches and STP from one debt scheme to another debt scheme.

The AMC / Trustee reserves the right to change / modify the Load structure of the Scheme, if deemed necessary in the interest of smooth and efficient functioning of the Mutual Fund, depending upon the circumstances prevailing at that time, subject to maximum limits as prescribed under the Regulations. However, the Redemption Price will not be lower than 93% of the NAV or as permitted / prescribed under the SEBI Regulations from time to time. Similarly, the difference between the Subscription Price and the Redemption Price shall not exceed the permitted limit as prescribed by SEBI from time to time which is presently 7% calculated on the Subscription Price.

Load exemptions:

- AMC shall not charge any load on units allotted on reinvestment of dividend for existing as well as prospective investors.
- No Exit Load will be charged on Intra-Scheme switches i.e., switches between Growth and Dividend Options.

Any change in the load structure shall be applicable on prospective investments only. For any change in load structure, the AMC will issue an addendum and display it on its Website (www.pgimindiamf.com) and Investor Service Centers. The addendum will also be circulated to all the distributors / brokers, so that the same can be attached to all SIDs and Key Information Memoranda in stock till the same is updated and reprinted. The AMC would make arrangements to display the addendum to the SID in the form of a notice at all the Investor Service Centers. The change in the Exit Load along with the details may be stamped in the acknowledgement slip issued to the investors on submission of the Application Form and would also be disclosed in the statement of accounts issued after the introduction of such Load. A public notice shall be given in respect of the change in one English daily newspaper having nationwide circulation as well as in a newspaper published in the language of region where the head office of the Mutual Fund is situated. Any other measures which the Mutual Fund may feel necessary would be undertaken.

The investors are requested to check the prevailing load structure of the Scheme before investing.

For the current applicable exit load structure, please refer to the website of the AMC (www.pgimindiamf.com) or may call at 1800 266 2667 (toll free no.) or your distributor.

D. WAIVER OF LOAD FOR DIRECT APPLICATIONS

In terms of SEBI circular no. SEBI / IMD / CIR No. 4 / 168230 / 09 dated June 30, 2009 there shall be no Entry Load for all mutual fund schemes.

Exit load is as specified under section IV C above, titled 'Load Structure'.
