5. INVESTMENT VALUATION NORMS FOR SECURITIES AND OTHER ASSETS

PGIM India Mutual Fund shall value its investments according to the valuation norms, as specified in Schedule VIII of the Regulations, or such norms as may be prescribed by SEBI from time to time. The broad valuation norms are detailed below. These norms are indicated based on the current Regulations and the Guidelines issued by SEBI: -

A. Valuation Norms for Equity and Equity Related Instruments

1. Traded Security: - All actively traded equity securities be valued at it's closing price on the principal stock exchange (NSE) on the Valuation day (i.e. T day). If a security is not listed on the principal stock exchange but listed on the secondary stock exchange, the closing price of the security on the secondary stock exchange on the valuation day will be considered for the purpose of valuation. Likewise, for an equity security listed on both the Exchanges, If the price is not available on a particular valuation day then it's closing price in the Secondary Stock Exchange (BSE) on valuation day will be considered for the purpose of valuation. If a security is not traded on the principal or secondary stock exchange on a particular valuation day, the value at which it was traded on the principal stock exchange or secondary stock exchange as the case may be, on the earliest previous day may be used provided such date is not more than 30 days prior to the valuation date.
2. Non Traded security or thinly traded security: - If the equity instrument is not traded up to T-30 days or is thinly traded (trade value in a calendar month is less than Rs. 5 lakhs and total volume is less than 50,000 shares) then the valuation will be;
 - a. Non Traded security - in good faith on the basis of net worth per share and earnings capitalization, as prescribed by SEBI.
 - b. Thinly traded security - Where a Stock Exchange identifies thinly traded securities and publishes or provides the required information along with the daily quotations, the same shall be used for the purpose of valuation. Where no such information and quotations are available valuation shall be done on the basis of in good faith based on the principles described above for non-traded securities.
3. Merger/ Amalgamation: - Valuation of the resulting company would be determined by valuation of merging/amalgamating company prior to the ex-date of merger/amalgamation. In case of merging/amalgamating companies being listed, valuation of resulting companies would be

summation of valuation of entities immediately prior to merger date. Further if a listed company merges into an unlisted surviving company, then the surviving company should be valued at the traded value of merging company immediately before merger.

4. **Demerger:**-In case of demerger, there are three possibilities namely, (a) both companies' shares are listed (b) One of the companies' shares are listed (c) both companies' shares are not listed.

- a) If both the companies are listed, then the traded price of the individual securities will be considered for valuation.
- b) If one of the demerged companies is listed :
 - i. for the company whose security is listed, the valuation would be carried out by following the methodology defined above for traded securities ; and
 - ii. for the company whose security is not listed, the valuation price will be derived as follows :
[Last quoted closing price of the original traded share one trading day prior to the ex date of the demerger] **minus** [Last quoted closing price of the listed company after the demerger].

In cases where the last quoted closing price of the listed company after demerger is equal to or in excess of the premerger price, then the valuation price for the non listed company will be taken as Zero.

- c) In cases where there are multiple demerged companies and such companies are not listed, the valuation methodology will be finalized in consultation with the valuation committee. Likewise, other complex reconstruction and arrangement transactions where the methodology for valuation is not defined in this policy document will be referred to the valuation committee for guidance on fair valuation and the justification for the recommended methodology would be recorded in writing.
 - d) If both the companies post demerger are not listed, the pre-merger price (i.e the closing price of the share of the company one trading day prior to the ex-date for the demerger) will be bifurcated between the two resulting companies in the demerger ratio.
5. **Valuation of Rights Entitlement and Renunciation:** - The Rights entitlement will be valued as on ex-date. The rights entitlement will be valued at Ex-Rights price minus Rights Offer price till the rights shares are traded. In case the offer price is higher than the Ex-Rights price, rights share will be valued at Zero. In case of rights on non traded shares, the value of rights will be Zero. In case the quantity applied for, is less than or equal to the rights entitlement, then shares applied will be valued at the ex-rights price till the rights shares are traded. In case the quantity applied for is more than the rights entitlement then the additional quantity will be shown as application money. Valuation of additional quantity will commence on confirmation of actual allotment.

Renunciations : Where rights shares are renounced and if the rights share renunciation is traded in the stock exchanges, then the traded price for the renunciations shall be used for valuation.

6. **Preference Shares:** - For all categories of preference shares that are listed and traded in the Stock Exchanges, the valuation would be done at the closing price of the security in the principal stock

exchange or the secondary stock exchange and the valuation methodology adopted will be similar to valuation of traded equity securities mentioned above. Where preference shares are not traded or listed, the same shall be fair valued by the valuation committee after considering price / terms of underlying security. Valuation committee shall, after taking into account available data points, determine the valuation of such security providing for appropriate illiquidity discount to reflect the fair realizable value of the security.

7. Convertible Debentures:-

- In the case of convertible debentures, the non-convertible and convertible components shall be valued separately. The non-convertible component (Debt) shall be valued on the same basis and methodology as would be applicable for debt instruments. The convertible component (Equity) should be valued on the same basis as would be applicable to an equity instrument. If after conversion the resultant equity instrument would be traded at the same level with an existing equity instrument which is traded, the value of the latter instrument can be adopted after an appropriate discount for non-tradability, time value, volatility etc of the equity instrument during the period preceding the conversion. While valuing such instrument the fact whether the conversion is optional shall also be taking into consideration

8. Warrants: - Traded warrants will be valued at traded price. Non traded warrants will be valued as under:

- If the exercise price is less than the underlying share price then the warrants would be valued at the value of the underlying share price less the exercise price with illiquidity discount as may be decided by the valuation committee.
- If the exercise price is more than the underlying share price then it would be valued at Zero.

9. Futures and Options: -

- Traded - Futures and Options that are traded shall be valued as per the settlement price provided by NSE. ;
- Non Traded - When a security is not traded on the respective stock exchange on the date of valuation, then the settlement price / any other equivalent price provided by the respective stock exchange. . In the event such reference price is not available for a particular security, the same shall be fair valued by the valuation committee after considering prices / terms of underlying security.

10. American Depositary Receipt /Global Depositary Receipt (ADR/GDR):- ADR and GDR will be valued based on last traded price on the exchange where the issue is listed. However in case an ADR or GDR is listed on more than one stock exchange, the AMC reserves the right to determine the stock exchange, the price of which would be used for the purpose of valuation of the same.

Due to difference in time zones of different markets, in case the closing prices of securities are not available within a given time frame to enable the AMC to upload the NAVs for a valuation day, the AMC may use the last available traded price for the purpose of valuation. The use of

the closing price/last traded price for the purpose of valuation will also be based on the practice followed in a particular market.

Non traded ADR/GDRs shall be fair valued by the valuation committee after considering prices / terms of underlying security.

11. Unlisted Equity Shares: - Unlisted equity shares will be valued in good faith on the basis of net worth per share and earnings capitalization, as prescribed by SEBI.

B. Valuation Norms for Debt and Money Market Instruments

1. Valuation of Money market and Debt securities including Bill Rediscounting (BRDS):-

These instruments will be valued at the average of the security level prices as provided by the valuation agencies nominated by AMFI (currently CRISIL & IMACS) .

In case security level prices given by valuation agencies are not available for a new security (which is currently not held by any Mutual Fund) then such security may be valued at purchase yield on the date of allotment/purchase.

If the security level prices are not provided on subsequent days and the purchase yield is considered inappropriate, then the Valuation Committee shall adopt alternate procedures / methodologies in accordance with the fair valuation principles to arrive at the fair valuation of the security.

Money market and debt securities which are rated below investment grade shall be valued at the price provided by valuation agencies.

Till such time the valuation agencies compute the valuation of money market and debt securities classified as below investment grade, such securities shall be valued on the basis of indicative haircuts provided by these agencies. These indicative haircuts shall be applied on the date of credit event i.e. migration of the security to sub-investment grade on the principal and accrued interest if any and shall continue till the valuation agencies compute the valuation price of such securities. Further, these haircuts shall be updated and refined, as and when there is availability of material information which impacts the haircuts. In case of securities classified as below investment grade but not default, interest accrual will continue with the same haircut applied to the principal. In case of securities classified as default, no further interest will be accrued.

In case of trades during the interim period between date of credit event and receipt of valuation price from valuation agencies, such traded price for valuation will be considered if it is lower than the price post standard haircut. The said traded price shall be considered for valuation till the valuation price is determined by the valuation agencies.

In case of trades after the valuation price is computed by the valuation agencies as referred above and where the traded price is lower than such computed price, such traded price shall be considered for the purpose of valuation and the valuation price may be revised accordingly.

The trades referred above shall be of a minimum size as determined by valuation agencies.

For instruments maturing above 1 year:

The weighted average yield / price of traded securities (excluding inter scheme transfers of others and own trades of PGIM India Mutual Fund) will be considered if there are at least two trades, with each trade being of a minimum Rs 5 crores face value, aggregating to Rs. 25 crores or more for same or similar security on a public platform*

- 1) Same issuer and same type of asset, with maturity date within ± 7 calendar days of maturity date of security shall be considered first and should have a residual maturity upto 30 days. If no such instance is available, then Step 2. will be followed.

- 1) Same issuer and same type of asset, with maturity date within ± 15 working days of maturity date of security shall be considered first. If no such instance is available, then Step 2 will be followed:

C. Valuation Norms on AT-1 Bonds & Tier-2 Bonds

AT-1 Bonds and Tier-2 bonds will be valued as per AMFI best practices guidelines circular no 91/2020-21 dated March 24, 2021 or any subsequent amendments there to.

1. The said waterfall requires grouping of same issuer with similar maturity and similar issuers with similar maturity. However, in case any ISIN of issuer has not traded, the valuation of AT-1 Bonds is currently done based on adjusting spread directly to the benchmark security.
2. In order to improve existing valuation of these bonds and implement the defined waterfall, following is proposed to be done:
 - i. Form two types of ISINs:
 - a) Benchmark ISINs (a non-benchmark ISIN can be linked to only one benchmark ISIN. Currently, SBI ISINs happens to be the benchmark ISINs across all maturities for AT-1 Bonds.)
 - b) Non-benchmark ISINs (Will be divided into multiple groups based on similar issuer and similar maturity).
 - c) The groups will be decided in consultation with valuation agencies. The two main criteria envisaged to be used here would be Tier 1 / Tier 2 ratings of the ISINs / Issuers, and the spread range in which the group of ISINs / Issuer's trade over the benchmark.
 - ii. Take a look back period for trade recognition as under:
 - a) 15 working days for benchmark ISINs
 - b) 30 working days for non-benchmark ISINs
 - c) This will be revised to 7 working days for benchmark ISIN and 15 working days for non-benchmark ISINs from October 01, 2021.
3. If the ISIN gets traded, the traded YTM will be taken for the purpose of valuation. Further, if 1 ISIN of the issuer trades all other ISINs of issuers will be considered as traded but with necessary adjustment of spread to YTM. If none of the ISIN of the issuer gets traded, the trade of similar issuer in the group will be taken to valuation however with necessary adjustment of spread to YTM of similar issuer similar maturity. If none of the ISIN in a group gets traded on any particular day, an actual trade in a look back period will be seen. If there is an actual trade in look back period the security will be considered as traded and valued with necessary adjustment of spread to YTM. According to this valuation will be done based on the trade of issuer, trade of similar issuer and as

an additional layer a look back period of is requested. It is confirmed that spread over YTM will be taken without any adjustment of modified duration to call.

4. Further, as the valuation is based on trade during the look back period, it is confirmed that a spread will be adjusted to reflect adverse news, change in credit rating, interest rate etc., which has bearing on the yield of ISIN being valued.
5. However, if there is no actual trade of any ISIN of the issuer as well as similar issuer during look back period also then valuation will be done by taking spread over matrix and/or polling in line with the waterfall mechanism prescribed by AMFI.
6. AMCs shall adopt maturity of 100 years for perpetual bond issued by banks. There will be a glide path for smooth implementation. The Deemed Residual Maturity for the Purpose of Calculation of valuation as well as Macaulay Duration for existing as well as new perpetual bonds issued:

Time Period	Deemed Residual Maturity (Years)
Till March 31, 2022	10
April 01, 2022 – September 31, 2022	20
October 01, 2022 – March 31, 2023	30
March 31, 2023 onwards	100

The residual maturity will always remain above the deemed residual maturity proposed above.

7. Hitherto, Mutual Fund industry used to value Tier II bonds considering first call date as a deemed maturity date. Therefore, a glide path is required for valuation as well as calculation of Macaulay Duration for tier II bonds also. Accordingly, valuation methodology, as mentioned above, for AT-1 Bonds is to be followed for the valuation of tier II bonds also. Further, the Macaulay Duration is proposed to be calculated as under for Tier II bonds:

Time Period	Deemed Residual Maturity for all securities (Years)
April 01, 2021 – March 31, 2022	10 years or contractual maturity whichever is earlier
April 01, 2022 onwards	Actual Maturity

8. Besides, AT-1 bonds and Tier 2 bonds being different categories of bonds, the valuation of these bonds will be done separately (i.e.) ISIN of AT-1 bond traded will not mean that ISIN of Tier-2 bonds of the same issuer have also traded. However, if any issuer does not exercise call option for any ISIN, then the valuation and calculation of Macaulay Duration should be done considering maturity of 100 years from the date of issuance for AT-1 Bonds and Contractual Maturity for Tier 2 bonds, for all ISINs of the issuer.

9. It is confirmed that the Macaulay Duration of ISINs will be calculated based on the deemed residual maturity proposed in para 7 and 8 above to reflect the duration risk.
10. Further, henceforth mutual funds will disclose both Yield to Call and Yield to Maturity.

D. Valuation Norms for Other Instruments

1. Units/Shares of Mutual Fund: - Investments in Units / Shares of Mutual Fund Schemes will be valued at the last declared / latest Net Asset Value made available per Unit / Share by the respective mutual fund Scheme, as at the close of the relevant valuation day. Where the investment is in an overseas fund, the NAV per unit of the underlying fund in the foreign currency would be converted into INR using the FBIL Reference Rate from Bloomberg.
2. Upfront Fee on Trades:- Details of upfront fees to be shared with the valuation agencies on the trade date as part of the trade reporting.

Upfront fees on all trades including primary market trades will be considered by the valuation agencies for valuing the security

Upfront fees will be reduced from the cost of the investment in the scheme that made the investment

In case upfront fees is received across multiple schemes, then such upfront fees should be shared on a pro rate basis across such schemes

3. Foreign Securities:-

- On the valuation date, the securities issued outside India and listed on Stock exchanges outside India shall be valued at the closing price on the stock exchange at which it is listed or at the last available traded price. However in case a security is listed on more than one stock exchange, the AMC reserves the right to determine the stock exchange, the price of which would be used for the purpose of valuation of that security. . In such cases, the AMC shall record the justification for selecting a particular stock exchange whose price is used for valuation. If, at a later date, the AMC proposes to apply the price available on a different stock exchange for the purpose of valuation of the security, the same would need to be approved by the Valuation Committee with necessary justification for the change and such change shall be carried out prospectively after the approval of the valuation committee.
- Due to difference in time zones of different markets, in case the closing prices of securities are not available within a given time frame to enable the AMC to upload the NAVs for a Valuation Day, the AMC may use the last available traded price for the purpose of valuation. The use of the closing price/last traded price for the purpose of valuation will also be based on the practice followed in a particular market.
- In case any particular security is not traded on the Valuation Day, the same shall be valued on a fair value basis by the Valuation Committee of the AMC.

E. Deviation:-

Any deviation to the Valuation Policy shall be with the prior approval of the Valuation Committee and a detailed rationale for such deviation will be recorded. All such deviations along with details such as information about the security (ISIN, issuer name, rating etc) price at which the security was valued vis-à-vis the price as per the valuation agencies and the impact of such deviation on scheme NAV (in amount and percentage terms) shall be reported to the Board of AMC and Trustees.

F. Exceptional Events:-

While the endeavour at PGIM India AMC is to adopt a fair, reliable and consistent valuation methodology that reflects the realisable value of securities held across the portfolios of its various schemes, in exceptional circumstances, there may be a need for a departure from the consistently followed approach and methodology to ensure fair valuation of securities. While it is not practically possible to list all kinds of exceptional events, the following types of events have the potential of being classified as exceptional events :

- Major policy announcements by the Central Bank, the government or the regulator
- Natural disasters or public disturbances that force the markets to close unexpectedly
- Significant volatility in the capital market
- Liquidity crunch in the market
- Events related to a company or a sector falling below the investment grade
- Any other event which the valuation committee believes is exceptional

The valuation committee shall be responsible for identifying such exceptional events and recommending appropriate alternate valuation methodologies in line with the principles of fair valuation.

In case of exceptional event, the Valuation Committee may seek the guidance of the AMC board in deciding the appropriate methodology for valuation of affected securities. Deviations from the valuation policy and principles, if any, will be communicated to the unit holders by way of suitable disclosures on the fund's website.

Paragraph 4.4 of SEBI Master Circular dated May 19, 2023, has permitted creation of segregated portfolio of debt and money market instruments by Mutual Fund schemes. As per the SEBI circular, all the existing unit holders in the affected scheme as on the day of the credit event shall be allotted equal number of units in the segregated portfolio as held in the main portfolio. Accordingly, on segregation, the unit holders hold same number of units in two schemes –the main scheme and segregated scheme.

Explanation 1 to Section 2(42A) of the Act relating to the period of holding provides that the period of holding of the units of the segregated scheme shall include the period for which the units in the main scheme were held by the assessee.

Similarly, sub-section (2AG) is inserted in section 49 of the Act to provide that the cost of acquisition of a unit or units in the segregated portfolio shall be the amount which bears to the cost of acquisition of a unit or units held by the assessee in the total portfolio, the same proportion as the net asset value of the asset transferred to the segregated portfolio bears to the net asset value of the total portfolio immediately before the segregation of portfolios.

Also, sub-section (2AH) of section 49 of the Act provides that the cost of the acquisition of the original units held by the unit holder in the main portfolio shall be deemed to have been reduced by the amount so arrived at under sub-section (2AG) of the Act.

Separately, the provisions of the Act are silent on the tax neutrality of receipt of units of segregated portfolio. However, arguably, segregation of portfolio does not result in transfer as investor as the investor continues to hold units of main portfolio and segregated portfolio.

(iii) Tax on business income

Under section 28 of the Act, profit arising on transfer of units of a mutual fund which are held as stock in trade or trading asset, is taxed under the head ‘Profits and gains of business or profession’. Such profit is added to the total income of the assessee and taxed at applicable rates.

In case of non-resident Unit holders eligible for availing tax treaty benefits, please refer to paragraph (viii) below.

(iv) Deduction from business income

No deduction would be allowed for STT while calculating capital gains. However, where the units are treated as stock in trade and the profits arising from the sale of units are taxed under the head ‘Profits and gains of business or profession’, the STT paid by the Unit holder can be claimed as a deduction from such business profits under section 36(xv) of the Act.

(v) Tax on income from other sources

Section 56(2)(x) in the Act provides that any property (includes mutual fund units) received without consideration or for consideration less than the Fair Market Value (FMV) is taxable in the hands of the recipient, being any person instead of limiting it to individuals and HUFs. Certain exceptions such as property received from prescribed persons like relatives, etc. or on prescribed occasions like marriage, etc. have been excluded from the purview of section 56(2)(x) of the Act. The following amounts would taxable under the head 'Income from other sources' at the rates mentioned in Table D/ Table E above:

Table F

Sr No.	Taxable situation	Taxable amount
(a)	Units received without any consideration where the aggregate fair market value of such units exceed Rs 50,000	The aggregate FMV of the units received
(b)	Units received for a consideration where the aggregate FMV of the units received exceeds the consideration by more than Rs 50,000	The difference between the aggregate FMV of the units and the consideration

For this purpose, the FMV means the value to be determined in accordance with the methods prescribed.

For the purpose of computing capital gains on transfer of such units received without consideration or for consideration less than the FMV, the cost of acquisition is deemed to be the value determined under (a) or (b) above, as the case may be.

(vi) Deduction from total income

In terms of the provisions of section 80C of the Act, an individual or a HUF is entitled to claim a deduction in respect of the amount of subscription made to any units of any Mutual Fund referred to in section 10(23D), being a fund formulated in accordance with the Equity Linked Savings Scheme, 2005 notified by the Central Government in the Official Gazette vide notification no. SO 1563(E) dated 3 November 2005. The aggregate amount deductible under section 80C in respect of subscription to the units of the Mutual Fund (including the amount of dividend reinvested), being an equity linked savings scheme and other prescribed investments is restricted to Rs 150,000.

Further, a new tax regime for the taxpayers like individual and HUF is provided, where taxpayers are given an option to pay taxes at a concessional rate (new slab rates) from FY 2020-21 onwards (refer Table E above for rates effective from 1 April 2023). Any individual/ HUF opting for such the new tax regime from FY 2020-21 onwards will have to discharge taxes on income at the concessional rate prescribed by forgoing specified exemptions and deductions (i.e. house rent allowance, deduction under Chapter VI-A other than the provisions of section 80CCD(2) and section 80JJAA of the Act, without set off of any losses) and satisfaction of certain conditions.

Thus, individual or HUF opting for new concessional tax regime shall not be entitled to deduction under section 80C of the Act.

For the purpose of computing the eligible deduction under section 80C of the Act under the old regime, the total income of the assessee shall be reduced by the income earned in the nature of long-term capital gains and short-term capital gains on equity oriented mutual fund.

In the case of a non-resident Unit Holder who is resident of a country with which India has signed a Double Taxation Avoidance Agreement (DTAA), which is in force, income-tax is payable at the rate provided in the Act or at the rate provided in such agreement, whichever is more beneficial to such non-resident Unit Holder.

Further, where the rate of tax prescribed under the relevant DTAA is lower than that prescribed under the Act, tax would be withheld at such lower rate.

Section 90(4) of the Act, provides that a taxpayer, not being a resident, to whom a DTAA applies, shall not be entitled to claim any relief under such DTAA unless a certificate of it being a resident (TRC) in any country outside India is obtained by it from the Government of that country.

The Central Board of Direct Taxes (CBDT) has issued a Notification substituting Rule 21AB of the Rules and prescribing the format of information to be provided under section 90(5) of the Act, i.e. in Form No 10F. An assessee would be required to furnish Form No 10F, where the required information⁵ is not explicitly mentioned in the aforementioned certificate of residency; in which case, the Notification additionally requires the assessee to keep and maintain such documents as are necessary to substantiate the information provided.

However, CBDT has not specified any class of persons or cases as on the date.

(ix) Tax on Income distributed by the Mutual Fund (dividend income)

Currently, the income distributed by the Mutual Funds (dividend income) is taxable in the hands of the unitholders at the applicable tax rates (plus applicable surcharge and cess), as below:

Table I

Particulars	Tax
Resident (Individuals/ Non-corporates/ Corporates)	Refer tax rates mentioned in Table D/ Table E above.

⁵ - Status (individual, company, firm etc.) of the taxpayer;

- Nationality (in case of an individual) or country or specified territory of incorporation or registration (in case of others);

- Taxpayer's tax identification number in the country or specified territory of residence (In case there is no such number, then, a unique number on the basis of which the person is identified by the Government of the country or the specified territory of which the taxpayer claims to be a resident);

Non-residents (Individuals/ Non-corporates / Corporates)	Taxed in the hands of unitholders at the rate of 20% under section 115A of the Act (plus applicable surcharge and cess).
--	--

Such income from units is now taxable in the hands of investors after the deduction of interest expense incurred if any, and such deduction shall not exceed 20% of the dividend or income from units under section 57 of the Act.

Additionally, taxability in the hands of non-residents shall be subject to DTAA benefits which can be claimed in the return of income to be filed by such investors. The investors should obtain specific advice from their tax advisors regarding the availability of the tax treaty benefits.

Further, it shall also subject to withholding of taxes at source by the Mutual Fund (discussed above).

(x) Bonus stripping

Under the provisions of section 94(8) of the Act, where a person buys units (original units) within a period of three months before the record date, receives bonus units on such original units, and then sells (all or part of) the original units within a period of nine months from the record date and continues to hold the bonus units, then the loss incurred on the original units shall be ignored while computing the income chargeable to tax but shall be deemed to be the cost of acquisition of the bonus units.

(xi) Switching between options

Switching from one option to another option of a Scheme will be effected by way of redemption of units of the relevant option and reinvestment of the redemption proceeds in the other option selected by the Unit holder. Hence, switching will attract the same implications as applicable on transfer of such units.

(xii) Set-off and carry forward of losses

According to the provisions of the Act, the capital loss resulting from sale of units would be available for set off against other capital gains made by the investor and would reduce the tax liability of the investor to that extent. However, losses on transfer of units held as long-term capital assets would be allowed to be set-off only against gains from transfer of long-term capital assets. Where such losses arising from sale of units held as capital asset cannot be wholly set-off, the amount of losses not set-off can be carried forward for a period of eight years.

Under the Act, a loss resulting from the transfer of units held as stock in trade or trading asset would be available for set off against income under any other head other than income under the head 'Salaries'. Where such loss cannot be wholly set-off in accordance with the provisions of the Act, the amount remaining to be set-off can be carried forward for a period of eight years and set-off against income under the head 'Profits and gains of business or profession'.

The above provision shall be subject to bonus stripping provisions as discussed in para (x) above.

(xiii) Minimum Alternate Tax (MAT)

Section 115JB(1) of the Act provides that, if the tax payable by a company on the total income computed as per the provisions of the Act is less than 15% of its 'book profit', then notwithstanding anything contained in any other provision of the Act, the 'book profit' shall be deemed to be the total income of the tax payer, and the amount of tax payable shall be the amount of income-tax at the rate of 15% (plus applicable surcharge and health and education cess) on such total income. This tax prescribed on book profits under section 115JB is commonly referred to as MAT.

The above provisions of section 115JB of Act shall not be applicable to domestic companies opting for concessional rate of tax under section 115BAA and 115BAB of the Act.

Section 115JB(2) of the Act further provides that, every company shall, for the purposes of section 115JB of the Act, prepare its profit and loss account in accordance with Schedule III of the Indian Companies Act, 2013. Further, Explanation 1 to section 115JB(2) of the Act prescribes certain additions to/ deductions from the net profit/ loss to determine the 'book profit' within the meaning of section 115JB of the Act.

The amount of income accruing or arising to a foreign company from capital gains arising on transactions in securities or interest, dividend, royalty, or fees for technical services chargeable to tax at the rates specified in Chapter XII of the Act, shall be excluded from the purview of MAT, if such income is credited to the Profit and Loss Account and the income-tax payable thereon in accordance with the provisions of the Act (other than the MAT provisions), is at a rate less than the MAT rate of 15%. Also, corresponding expenses shall be excluded while computing MAT.

Further, the MAT provisions are not applicable to a foreign company:

- i. If such company is a taxpayer of a country with which India has a DTAA and the taxpayer does not have a Permanent Establishment in India in accordance with the provisions of such DTAA.
- ii. If such company is a resident of a country with which India does not have a DTAA and the taxpayer is not required to seek registration under any law in force relating to companies.

As per the provisions of section 115JAA of the Act, a company paying tax under section 115JB of the Act is eligible to claim tax credit. The tax credit is the difference between the tax payable under section 115JB of the Act and the tax payable under the normal provisions of the Act. Such tax credit shall be carried forward and set-off up to 15 succeeding AYs.

Further, CBDT vide circular No. 29/2019 dated 2 October 2019 clarified that domestic companies opting for concessional rate of tax under section 115BAA and 115BAB of the Act will not be allowed to set off brought forward credit of taxes paid under the MAT provisions of the Act.

Foreign Tax Credit (FTC) claimed against MAT liability which exceeds the FTC that would have been allowable while computing income under normal provisions, would be ignored while computing tax credit under MAT.

(xiv) General Anti Avoidance Rules (GAAR)

The General Anti Avoidance Rule (GAAR), effective from 1 April 2017, allows the Indian Revenue authorities to declare an arrangement entered into by an assessee as an impermissible avoidance arrangement, subject to specified terms and conditions therein and determine tax consequences as appropriate. Further, investments made up to 31 March 2017 would be protected from the applicability of GAAR.

(xv) Certain deductions available under Chapter VI-A of the Act (Equity Linked Savings Schemes)

Equity Linked Savings Schemes (ELSS) are schemes formulated under the Equity Linked Savings Scheme (ELSS), 2005, issued by the Central Government.

Accordingly, any investment made by an assessee in the ELSS of the Fund up to a sum of Rs 1,50,000 in a financial year would qualify for deduction under Section 80C of the Act.

An “assessee” as per ELSS 2005 means:-

- (i) an individual; or
- (ii) a Hindu undivided family; or
- (iii) an association of persons or a body of individuals consisting, in either case, only of husband and wife governed by the system of community of property in force in the State of Goa and Union Territories of Dadra and Nagar Haveli and Daman and Diu by whom, or on whose behalf, investment is made;

Note-

Any individual/ HUF opting to be taxed under the new tax regime (i.e. opting for the option to pay taxes at a concessional rate as per new slab rates) will have to give up certain exemptions and deductions. Since, individuals/ HUF opting for the new tax regime are not eligible for Chapter VI-A deductions, the investment in ELSS Funds cannot be claimed as deduction from the total income.

B. Tax Implications for the Mutual Fund:

PGIM India Mutual Fund is a Mutual Fund registered with the Securities and Exchange Board of India and its entire income is exempt from tax under the provisions of section 10(23D) of the Act. The Mutual Fund will receive all Indian sourced income which shall not be subject to any deduction of tax at source under the provisions of section 196(iv) of the Act.

Where the Fund receives any income from investments made in overseas jurisdictions, the same may be subject to withholding tax (or any other tax) in the relevant jurisdiction from where the income is received. As the Fund is exempted from its entire income (including foreign income) in India, credit/ refund in respect of such foreign taxes withheld/ paid by the fund will not be available.

(i) STT

C. Other Considerations:

- (i) **Wealth-tax:** Finance Act 2015 has abolished the levy of wealth-tax under the Wealth-tax Act, 1957 with effect from the financial year 2015-16.
- (i) **Gift-tax:** The Gift-tax Act, 1958 has ceased to apply to gifts made on or after 1 October 1998. Gifts of units purchased in a scheme of the Mutual Fund would therefore, be exempt from gift-tax.
